## SURVIVORS HIT CREW IN PROBE

Federal Officials Begin Inquiry Into Sinking of Steamer Alaska

LIFEBOATS UPSET IN LAUNCHING, WORD

Witness Declare Men Incompetent and Boats Improperly Equipped

United Press Leased Wire

SAN FRANCISCO, Aug. 10.—Charges of incompetency on the part of the crew and improper equipment for the life boats of the wrecked steamer Alaska were made by survivors who testified today before the federal investigation which began this morning before inspectors of hulls and boilers, Bulger and Dolan.

Harold Laughlin declared that it took the crew eighteen minutes to lower the life boat he was in. Miss Evelyn Shipley of Los Angeles and Miss Florence O'Brien of Portland, declared that there were no sea plugs in the life boat they were in and they were forced to help bail out the boat to keep it afloat.

Claire Crew Untrained.

C. L. Vilim of Chicago declared "anyone could see the terrible lack of organization and training on the part of the crew. No one seemed to know how to lower the boats. It was terribly bungled."

Mrs. Albert Knuth testified that no one instructed her as to putting on a life preserver.

W. Krause, seaman, admitted that he did not have a life boat license. He said that 65 per cent of the members of the crew were supposed to have such licenses.

W. Helmer, boatswain, testified that only five of the fourteen men in the deck crew of the steamer were competent.

He said that two minutes after the ship struck Blunt's Reef Captain Hobey ordered him to lower away the boats.

Says Boat Upset.

"When I came back on deck with my men I found number four life boat on the port side tangled and upside down.

"Get this life boat untangled," Captain Hobey yelled at me.

"I picked five men out of the fourteen. They were the only competent men I had. I left them to untangle the boat and went to the starboard side and lowered those life boats."

Other members of the crew will testify later.

All of the passengers praised the conduct of Captain Hobey, who went down with his ship, and took occasion to slip into the record words of praise for the treatment they received at Eureka, where they landed.

ROUGH RICE MAY BE MILLED IN TRANSIT

WASHINGTON, Aug. 10.—Rice shippers were authorized by the Interstate commerce commission to have shipments of rough rice from California and Arkansas to New Orleans milled at Lake Charles, La., at the through freight rates, plus 2.5 cents a hundred pounds, transit charge.

SAN FRANCISCO, Aug. 10.—The permission granted by the interstate commerce commission for the milling of California and Arkansas rice in transit at Lake Charles, La., is said by milling interests here to work in favor of the growers and against the millers in California. The milling in transit privilege, whereby the rough rice can be delivered at destination clean at the present rate is expected to stimulate the market, but to take business away from California millers. The action before the commission was filed by Lake Charles millers and was opposed by California millers.

BABE RUTH SMASHES OUT HIS 42ND HOMER

POLO GROUNDS, New York, Aug. 10.—Babe Ruth made his forty-second home run of the season in the third inning of the White Sox-Yankee game here this afternoon. There was one man on base. Hodge was pitching.

MAY UNDERGO OPERATION NEW YORK, Aug. 10.—Four surgeons were expected to determine today whether an immediate operation on Henry P. Davidson is necessary. The noted financier's condition was said to have become noticeably bad shortly after his return from Europe where he was the active head of the American Red Cross.

San Francisco Vessel Reported Aground On Canal Zone Shoal

SAN FRANCISCO, Aug. 10.—The steamer Golden Gate, Captain Haskell commanding, ran on a shoal thirty-five miles from Cristobal, Canal zone, Sunday morning, according to advice to the San Francisco chamber of commerce marine department today.

The captain and 14 members of the crew remain on the vessel which is still intact, the advises said, while the first mate and ten members of the crew made Christobal in small boats to secure assistance.

A wrecking tug is en route to the scene.

The vessel is owned by the Ralph Coal and Navigation company of San Francisco and was en route from Manchester, England, to San Francisco.

FORD'S BUILDING IN GOTHAM SOLD UNDER JUDGEMENT

Hotel Company Suit Ends In Sale of Auto Company Sales Headquarters for \$676,000.

NEW YORK, Aug. 10.—The Ford Motor company building here was sold today by the United States marshal to satisfy a judgment obtained against the company by the Hotel Woodward.

The building was bought by the Aetna Casualty and Surety company for \$676,800.

The building used by the company as its sales headquarters here, is valued at considerably more than the sum for which it sold.

The judgment was obtained by the hotel company as the result of a contract executed several years ago through which the Ford company was to add to the building which would be used as an annex for the hotel. Judgment against the company was secured for \$600,376.

The Aetna company cannot obtain public possession of the building for about fourteen months, during which time it can be redeemed by the motor company.

"30" BULLETINS

PARIS, Aug. 10.—The Allied supreme council today decided to appoint an international commission, which will devise means whereby help may be given famine sufferers in Russia.

WASHINGTON, Aug. 10.—Congress will recess a week from Saturday for a month's vacation, according to an agreement reached between President Harding and Senators Lodge and Curtis, it was announced today.

WASHINGTON, Aug. 10.—President Harding today signed a proclamation giving permission for the managers of the Portland exposition for 1925 to invite European nations to participate. It is provided, however, that their participation shall in no way place an expense on this government.

WASHINGTON, Aug. 10.—Transfer of the government-owned Alaskan railroad to private individuals or corporations is provided in a bill introduced in the senate today by Senator New of Indiana.

The measure would consolidate all government bureaus relative to Alaska in one bureau of the department of the interior.

REPORT TEACHER SHORTAGE SACRAMENTO, Aug. 10.—There is still a shortage of teachers in California. With only half the courses heard from the office of Will C. Wood, school superintendent, 174 vacancies are yet to be filled. It is believed the shortage will total about 275 teachers.

SCHOOLS MAY BUY NEW MOTORCAR BUS

PASADENA, Aug. 10.—Pasadena school district may purchase a new motor bus in which to carry students from the outlying parts of the district to school.

The matter was brought up at the board meeting and referred to the committee on finance and supplies for investigation and recommendation.

SIGNS POINT TO EARLY WINTER

Mrs. Busch Donates Gardens to Legion to Aid Disabled Vets

United Press Leased Wire PASADENA, Cal., Aug. 10.—The famous "Busch Gardens" known all over the world for their beauty, and visited annually by scores of thousands of tourists, have been proffered by Mrs. Lily Busch of this city and St. Louis, for the use of the American Legion. The arrangement becomes effective Friday, when the spacious grounds will be thrown open to the public by the local post, at a small fee, the proceeds of which will be donated to the aid of disabled war veterans.

In the communication, which was tendered to Allen B. Bixby, commander of the Legion post

here, by Edmund V. Krug, Pasadena agent for the Busch estate, Mrs. Busch makes it explicitly understood that the receipts are solely for disabled war veterans and are to be distributed, wherever needed, all over the state of California. The term of the arrangement is indefinite and the Busch estate will receive no portion of the income, while still maintaining supervision and care of the splendid property.

Trustees named to administer the funds and be responsible for the conduct of the plan are: Walter K. Tuller, Los Angeles; Buron Fitts, Los Angeles, and Allen B. Bixby, Pasadena.

MAY UNDERGO OPERATION NEW YORK, Aug. 10.—Four surgeons were expected to determine today whether an immediate operation on Henry P. Davidson is necessary. The noted financier's condition was said to have become noticeably bad shortly after his return from Europe where he was the active head of the American Red Cross.

# Bandits Kill Two In Duel

\$15,000 RANSOM FOR PRIEST IS ASKED IN NEW KIDNAP NOTE

Johnson Urges Disarmament Parley Be Open to Public

WASHINGTON, Aug. 10.—Open sessions of the disarmament conference were demanded in the senate today by Senator Johnson, California.

"The first test of the success of the great disarmament conference to be held here will come on the question of open sessions," declared Johnson.

If the sessions are open, the public of the world may know what is going on and judge sincerity of the purposes of the representatives of all the nations gathered here, Johnson added.

"I hope and pray for its success," said Johnson.

Johnson said the Borah amendment to the naval bill and the subsequent calling of the conference by President Harding, "was the greatest personal victory ever achieved by a United States senator."

Johnson's remarks were provoked by an outburst by Senator Pat Harrison of Mississippi, who taunted Senators Lodge and Johnson into a discussion of the administration's policy of secrecy regarding the negotiations of a separate treaty with Germany.

Harrison read an article stating that Johnson and other senators were critical of this secrecy. It quoted an alleged conversation between Lodge and Johnson on the subject.

"The conversation is imaginary," said Lodge.

"It is partly correct, but does Senator Lodge an injustice," said Johnson.

SOLON CHARGES DYE INDUSTRY SPENDING MILLIONS ON LOBBY

WASHINGTON, Aug. 10.—Spurred by the efforts of a powerful lobby to place a dye embargo in the permanent tariff bill, Senator King, Utah, today announced he would demand the senate adopt his resolution calling for an investigation.

The unfiled tonnage July 31 was 4,850,324 as compared with 5,117,868 on June 30.

On May 31, the unfiled tonnage amounted to 5,482,487. On July 31, 1920, the tonnage was 11,118,468.

FILM CENSORS ARE COMING TO COAST

LOS ANGELES, Aug. 10.—Members of the official censor boards of Toronto, Montreal, Vancouver, Pennsylvania, Ohio, Maryland and of the cities of Detroit and Kansas City, assembled in Chicago as guests of Carl Laemmle of the Universal Film company, will leave today for Los Angeles.

The party will arrive in Los Angeles at 2:40 p.m., Sunday, August 14, over the Santa Fe. Harry M. Berman, general sales manager of Universal, will be in charge of the delegation.

After a brief reception at the station at which Mr. Thalberg will welcome the members of the commission to Southern California in behalf of Carl Laemmle, the party will be motored to the Beverly Hills hotel, where Stanley Anderson, managing director of the hostelry, will participate in entertaining them. Following a dinner at the hotel, the censors will receive Los Angeles newspaper writers, representatives of the motion-picture trade publications and correspondents of news services.

Thousands Slain as China Armies In 5-Day Battle

Bloody Fighting Reported As Southern Forces Make Big Gains Against Foes.

HANKOW, China, Aug. 10.—Five days of bloody fighting have turned the tide of civil war in China in favor of the southern armies which have occupied several dominating cities and towns in Central China, according to latest dispatches here. Thousands of casualties on both sides have been reported.

The defeat of the northern forces is further complicated by a split among the leaders. General Chang who cancelled his expedition into Urga when the army of General Tuchin Chaokun was ordered into the field by General Wu Pei Fu, is now allied with the southern forces.

General Chang has turned against the Chilites, his former allies, because of their refusal to join either side, terming their conduct "insincere and perfidious."

Success of the southern armies opens the way for a successful new government at Wu Chang unless the matter is checked.

Colonel George Harvey, American observer at the conference, broke his silence during the discussion, to say that such a course could be defended legally.

STARVING RUSS HORDE STARTS OVER BORDER

VENTURA, Aug. 10.—All signs point to an early winter, say the fishermen and farmers. Great flocks of wild ducks are noted flying south. It is declared the exodus of these birds from the north to the south indicates they are getting away from winter weather.

The southward flight of wild ducks does not usually take place until late in September. It is therefore believed that winter weather will set in possibly in six weeks earlier than usual in the far north, and this may also bring earlier rains in California.

SALMON PACK NORMAL NEW WESTMINSTER, B. C., Aug. 10.—J. A. Motherwell, chief inspector for Dominion fisheries, has returned from a tour of the fishing districts and states that the salmon pack for 1921 will be an average one, in spite of depressing reports that were broadcast earlier in the season.

The Polish Cabinet meets tomorrow to consider the matter, and it will probably appeal to the world to give aid to the Russians. The Poles also are worried by the discovery that Gen. Budenny is camping on the Poland-Russia frontier between Minsk and Kiev with 20,000 troops.

RIGA, Aug. 10.—Walter Lyman Brown, chief of the American relief commission assigned to Russia, arrived here today and immediately went into conference with Soviet representatives.

Boris Litvinoff, head of the Soviet delegation, was accompanied by M. Shapalin, famous singer.

Brown demanded assurances in regard to the American prisoners and guarantees for safety of relief workers.

The Americans crossed the border into Estonia this morning.

Narva is the first city on the Estonian side, situated at the head of Narva bay. Because of poor transportation the run to Reval was expected to take most of the day.

Brown and Litvinoff went into conference at 2 p.m. Brown immediately demanded information regarding the whereabouts of the American prisoners. He was informed that they spent

FORD OFFICIALS SHOT IN FIGHT TO SAVE FIRM PAYROLL

MEMPHIS, Tenn., Aug. 10.—Two policemen were probably fatally wounded by citizens here today who fired into a police automobile at Collierville, Tenn. Lieutenant Vincent Lucarini and three other police were in the automobile when a citizen's posse mistook their car for one in which the bandits who killed two men and seriously wounded two others in a daring attempted payroll robbery at the Ford Motor company's plant, were believed to be escaping. Policeman E. L. Heckinger, Lucarini's companion is not expected to recover.

United Press Leased Wire

SPRINGFIELD, Ill., Aug. 10.—Charging his indictment and arrest in Sangamon county is due to a corrupt political ring, Governor Len Small, late this afternoon hurled a defy to his political and personal enemies and demanded an immediate trial.

United Press Leased Wire

SPRINGFIELD, Ill., Aug. 10.—Len Small, Illinois governor, arrested after two weeks of playing hide and seek with Sheriff Henry Mester, today was offered a change of venue by State's Attorney Fred Mortimer.

The governor has frequently been quoted as saying he would not be given a fair trial in Sangamon county court, where warrants charge him with embezzling large sums of state money were returned.

Mortimer outlined a plan whereby the governor could obtain a change of venue into any other county when his case comes up for trial.

The governor was at liberty on posting \$50,000 bond. He will be arraigned on the first Monday in September before Judge Ernest Williams, here, along with the two alleged conspirators indicted with him.

J. C. Jensen of \$2,500. After locking Jensen in the vault in the pre-trial stage, he was released.

McHenry saved the \$500 payroll by dashing into the Ford offices through a rain of pistol bullets.

BANDITS LOOT IOWA BANK OF \$2500

COUNCIL BLUFFS, Ia., Aug. 10.—Two unmasked bandits this morning entered the Savings Bank at Weston, Iowa, near here and robbed Cashier J. C. Jensen of \$2,500. After locking Jensen in the vault the two men escaped in an automobile. It is believed they are headed for Omaha.

PASADENA GARDENERS PLANNING BIG SHOW

PASADENA, Aug. 10.—Arrangements are being made by the Pasadena Horticultural association for the big fall flower show which will be one of the features of the annual convention of the California nurserymen and which will be held for this time only at Exposition park, Los Angeles.

Out of courtesy to the nurserymen the Pasadena show is to be held in connection with the state meeting.

The flower show and nurserymen's convention will be held from October 20 to 26. A feature of the affair will be a seven-acre sunken garden planted to rare bulbs. Pasadena horticulturists are planning a show this fall which bids fair to eclipse all former events.

## KIWANIS TENETS OUTLINED BY L. A. SPEAKER

Principles underlying the organization of Kiwanis clubs are the "Seven Foundation Stones of Business Building." Carl Rosenberg, president of the Sals Managers' association of Los Angeles, told members of the Santa Ana Kiwanis club at luncheon at St. Ann's Inn today. Rosenberg was introduced by Fred H. Taylor, chairman of the day, as past president of the Rotary club of Los Angeles and present chairman of the Rotary International committee on education.

George R. Wells won the attendance prize.

Rosenberg likened his talk to a parable and used a novel method in order to impress the seven salient points of business building with seven blocks on which these points were inscribed. As he enunciated each point he turned the corresponding block on which appeared his point in writing.

Curiosity of the Kiwanis club men, when they sat down to lunch, was aroused by the seven numbered blocks. At the conclusion of Rosenberg's parable their curiosity had been turned to surprise and then to appreciative applause as the blocks were turned a second time, spelling KIWANIS.

**Tells Parable**

Rosenberg said: "My story or parable is of the transformation of a father and his business, which had been criticized by his son. The son left home rather than join his father in what he considered a decrepit and failing enterprise. Desereted by his son, the father realized something must be wrong.

"After considerable thought he evolved the "Seven Foundation Stones of Business Building."

"Number One he called Worthy Vocation. Was he engaged in a worthy vocation? If so, it was his duty to scour the markets of the world to serve the people who depended upon him to prove worthy of his vocation.

"Number Two—Self Improvement. He must not wear shabby clothes if he expected his business to be stylish. He must improve his own mind with good literature, and by attending at church.

"Number Three—Ambition to Succeed. Without ambition he could not succeed.

**Elevation of Standards**

"Number Four—Elevation of Standards. He must take proper interest in his employees, not compel them to ask for every raise. His interest in them must be voluntary. To raise their standards, he must raise his own.

"Number Five—Honesty. Honesty meant more than sixteen ounces to the pound and thirty-five inches to the yard. It meant the elimination even of shady tactics, heretofore overlooked.

"Number Six—Friendship. True friendship was the basis of his business. His must be a true friend and cultivate the friendship even of his competitors.

"Number Seven—Service. Service should be of the kind that would raise the standards of his business, and make the road easy for them that came after him. It was more than merely prompt attention to his clients."

**CALCIMINED GIRL  
OUT OF LUCK SOON**

CHICAGO Aug. 10.—Freckles for girls are again fashionable, the movie vamp is passe and modesty and the old-fashioned girl, after a decade, are once more in style. The calcined girl with the slinker slouch is out of luck, for the country is getting back to normalcy, not alone in business, but in feminine fashions.

Moving picture censors from all parts of the United States and Canada assembled here to visit the Pageant of Progress and will depart for Cinelandia in California.

"Movies are the weather vanes that indicate the fashions that will sweep across the continent," said Maj. Max S. Hamilton of Toronto. "What cinema actresses wear, say, do or look like today—just that will American and Canadian girls do tomorrow. The moves set the styles.

The trend of the films right now is toward the wholesome, apple pie sort of girl. Vamp films are languishing. Freckles now have the stamp of approval."

"Successful films nowadays are those depicting small town romances," said Walter L. Hill, representing a picture concern. "The demand is for the quiet dramatic life of the American home. Plays with a sex tinge are frowned upon. The bedroom drama is bankrupt."

"Censors and producers say the movies do not make criminals of boys and girls. Criminals are bred on the streets and in the vicious pool halls and dance halls. Parents, not the motion picture houses, are to blame when girls and boys go bad."

**GRASSHOPPERS VISIT  
CHICO IN SWARMS**

CHICO, Aug. 10.—Attracted by the bright lights, the grasshoppers left the farm and swarmed to the main streets of Chico last night.

Hoppers of all colors, sizes and descriptions flitted about the electricians and covered the sidewalks and streets, and many jumped through an open door into houses.

The present influx is recent, as no complaints have been heard from the neighboring orchardists as to damage done by them. In previous years grasshoppers have been so thick in Butte county that orchardists have had to take concerted action to rid their trees and fields of the vandals, who would ruin their products.

**BOY'S FOOT GASHED**

ARMOR Main, the 7-year-old son of A. L. Main, 1122 Cypress avenue, received a bad gash on his foot today when a road roller with a disc in tow passed along Cypress street where the lad was playing. It was found necessary to take eighteen stitches in the foot.

## CALL JURY FOR INQUIRY INTO MURDER CASE

(Continued from Page 1.)

written in her cell at the county jail. Her version of the "midnight murder," which has never been exonerated for sheer mystery in the criminal annals of the west, contained many penciled corrections.

The statement given to the United Press "that the world may know my story" follows:

By MADALYNNE OBENCHAIN  
(Written for the United Press)

I knew Arthur Burch was coming to Los Angeles, and I knew that he had taken rooms at the Russell hotel, just across the street from where Belton Kennedy had offices. But I knew nothing about Burch's connection with the case and I believe him to be absolutely innocent.

It is not true that I had broken with Belton on the night of the tragedy although I had previously tried to sever the bond which tied us together. I loved him even while I tried to quit him. I still love him.

Happenings on the night of the tragedy are imprinted on my mind forever very distinctly but afterwards for days, I was dazed. The men who shot him were very shabbily dressed. I did not see or hear a sound, except just before the first shot I heard voices. They might have been foreigners from their appearance. They were very dark. I could not tell what they said but I heard them speak.

I positively heard two shots. I did not see any flash. I was standing on the porch of the Beverly Glen bungalow at that time. He said "good night, Madalynne."

I ran down the steps after the first shot was fired and leaned over him and said "Belton, speak to me."

I screamed for help. I thought we would never get him to the doctor. I did not know for hours that he was gone.

I will not bring my relatives or friends into this tragic affair. It is deplorable. I do not care what happens to me—my interests are dead. My hopes are buried. My life's joys are ended.

There is little left to say, only it is all such a mystery. I have tried to help the sheriff's office get the straight of the story, but it seems to grow more complicated and tangled. It seems to mean that life's complexities grow greater for me.

LOS ANGELES, Aug. 10.—The prologue of the Kennedy murder trial drama is done.

The sombre play itself comes next.

Preliminary investigation into the alleged connection of beautiful Madalynne Obenchain and Arthur C. Burch, the latter enigmatic and smiling, was concluded during the night.

The grand jury has been summoned to convene tomorrow morning.

Indictments will be asked by the district attorney.

Burch still smiles behind his thick lensed glasses.

Madalynne, pale as death, apparently steadfast in her love for John Belton Kennedy, said stoically:

"It makes no difference if I am indicted, nor if I am convicted, nor if I am hung. Belton is dead. They may send me to him if they will."

Woman Blames Kennedy

Branding Kennedy, senior, father of the murdered man, as "bitter and vindictive" toward Madalynne, the girl's mother, Mrs. Emma Smart, was standing staunchly by her side today.

Mr. Kennedy would make it seem that Madalynne had pursued his son," Mrs. Smart said. "It was the other way. Belton's pursuit could not possibly have been more insistant. Why, even on the day of Madalynne's marriage, Belton sent her a special delivery letter which arrived just before the ceremony, and upset my girl completely."

"No one desires to probe into the life of one who is gone, but if vindictiveness forces us in self-defense to throw light into the recesses of Belton Kennedy's past, many disclosures may be expected."

Mrs. Smart advanced another theory: The possibility that the shot which killed Kennedy was intended for her daughter, "in which case," she concluded, "the gun surely could not have been held by Arthur Burch."

J. B. Kennedy, father of the slain broker, repeated his assertion that Madalynne had forced his love affair that ended in the "midnight murder" at Beverly Glen.

"My boy was uneasy for a week or so before he was murdered in so foul and cowardly a manner—shot to death in the dark—without a chance," Kennedy senior said in a low voice vibrant with restrained passion.

Says Woman Sought Gun

"I pressed him for the reason. He told me that some days ago, at the Alexandria hotel, Mrs. Obenchain had fallen to her knees before him and urged: 'Marry me, Belton! Marry me! I can't live without you!'

"He told me, too, that this woman had begged and begged him for a little gun which he carried, saying she wanted to kill herself.

"Belton, you marry me or I'll kill myself—I'll kill myself, but I won't hurt you!" he said she had told him.

Funeral arrangements had not been completed at an early hour this afternoon.

## NEW PROBATION CHIEF TO TAKE UP DUTIES BEFORE SEPTEMBER 1

Severing his connection with the Orange County Y. M. C. A. next Saturday night, R. R. Miller, assistant county secretary of the organization, with Mrs. Miller and their two sons, "Bobby" and "Budgie," will leave for a few days at the beach before returning to Santa Ana, where Miller will enter upon his new duties as county probation officer.

As originally planned, the duties were not to begin until September 1, but the change in date has been made to allow Miller's predecessor in the office, the Rev. Paul Wright, to go to Ontario a little in advance of the appointed time in order to find a suitable location for his family.

The Rev. Mr. Wright will take the pastorate of the Ontario First Christian church with the beginning of September.

Secretary Miller's successor in the "Y" work has not yet been selected, although there are several candidates under consideration, it was stated at the Y. M. C. A. office in the First National Bank building

## NEW S. A. FIRE ENGINE DUE TO ARRIVE TODAY

Santa Ana has a regular fire engine.

John Luxemburger, chief of the fire department, was to bring it here from Los Angeles today.

Technically it is known as a Seagrave pump, with a capacity of 750 to 1000 gallons a minute. The pumping apparatus is driven by the motor which draws it to the scene of a fire. This motor is a specially built Seagrave motor, six-cylinder, 140 horse power.

This truck will carry, it is expected, 1500 feet of 2 1/2 inch hose and 400 feet 1 1/2 inch hose, with the necessary equipment of chemical tanks, "fire-guns," axes, and many other items.

Comes From Ohio

The pump was ordered about five months ago from the Columbus, O., factory, which promised nothing under 150 day delivery. It arrived in Los Angeles, last Saturday.

Chief Luxemburger went to Los Angeles yesterday in order to inspect the truck. It was given a test run as far as Alhambra, whose fire chief wanted to see Santa Ana's new modern piece of equipment. As result of the test run, Chief Luxemburger decided on various minor changes in arrangement of equipment.

Today he went to Los Angeles again to bring the pump to Santa Ana.

Generates Own Pressure

Acquisition of the new pump means that Santa Ana will no longer be dependent upon hydrant pressure to force a stream of water into the heart of a fire. The new equipment generates its own pressure.

Official test of the pump will be made in the near future by the fire underwriters. To come up to the requirements of the ruling of the National Association of Fire Underwriters, the pump must work at maximum for a period of four successive hours, according to the understanding of men at the fire hall.

There was nothing to show foul play or suicidal intent. Mrs. Johnson lived about a block from where she was found dead, her body yet warm. It is thought that she became distressed and went out for fresh air. Becoming exhausted, she dropped on the steps. It is known that she was subject to "smothering spells."

Mrs. Myrtle Gibbons, her nurse, stated today that Mrs. Johnson had passed yesterday evening in good spirits. Shortly before midnight Mrs. Johnson was heard sighing deeply. Mrs. Gibbons went to her and asked her what was the matter. To this she replied:

Complains of Fatigue

Mrs. Gibbons thought her condition was due to over-exertion and after a few moments returned to her room. She heard no more from Mrs. Johnson and thought she had fallen asleep. She did not know differently until 5 a.m. today. Mrs. Gibbons had not been told of Mrs. Johnson's tendency to walk at night.

Mrs. Johnson leaves a husband and three daughters, 5, 7 and 8 years old.

Funeral arrangements had not been completed at an early hour this afternoon.

BOY CYCLIST BRUISED  
AS TRUCK HITS HIM

Eldon Moore, 16, son of W. D. Moore, 1425 West Fourth street, was treated at the Community hospital for injuries sustained shortly before noon today, when he was struck by a Standard Oil truck driven by T. J. Simmons, of Santa Ana. The boy was not seriously hurt. He received several bruises and minor cuts, however.

The accident happened at the corner of Fifth and Baker streets. The truck was traveling west on Fifth street. Simmons, the driver, turned north on Baker and swung to the left in an effort to avoid a chuck hole. Moore and his father were each riding bicycles. Only the boy was struck.

Simmons drove the truck upon the sidewalk in an effort to avoid striking him.

CALIFORNIA JESUIT  
ORDAINED IN SPAIN

SANTA CLARA, Aug. 10.—The Rev. E. J. Whelan, S. J., a former resident of San Francisco, was recently ordained to the priesthood in Ona, Spain.

BOUNDS—Mrs. Sarah K. Bounds, 1315 East First street, aged 89 years, August 8, 1921.  
Services will be held tomorrow at 2 p.m. from Smith and Tuthill's chapel.

**MASONIC NOTICE.**  
Called meeting of Santa Ana Chapter No. 73, Royal Arch Masons, Thursday, Aug. 11th, for work in the Degree of Most Excellent Master.

By order of PRINCE L. TOPES,  
High Priest.

G. A. WHIDDEN, Secretary.

**BODY OF SPRECKELS TAKEN TO BAY CITY**

BAKERSFIELD, Aug. 10.—The body of John D. Spreckels Jr., who died here from injuries sustained when his automobile turned over near Taft, left this city on a special train for San Francisco, accompanied by John D. Spreckels sr., father of the dead man, Claus Spreckels, his brother, and a sister. The remains are to be cremated in San Francisco, the relatives stated.

At an inquest held in Taft a verdict of death "due to loss of blood, a hemorrhage of the brain, and possible contusion of the head, caused by the overturning of an automobile driven by himself," was reached by Coroner L. G. Helm. Relatives of the Junior Spreckels attended the inquest.

The Jemolan caves of Australia are lighted by electricity.

A. U. Bowen, office manager of the Anheim branch of the Union Oil company, reported to the Anaheim authorities today that his office was entered last night. While nothing of value was reported missing, the thieves thoroughly ransacked papers in the office and secured a few postage stamps. The office was entered by the front door, the glass in which was broken.

**Toggery Shirts**

When hard service and many launderings have had their innings—that's the time you'll realize to the full the superiority of Toggery Shirts. The rich colors will be undimmed—the staunch fabrics still good-looking—the easy, roomy fit unchanged.

**BOY, 5, FATALLY HURT AS AUTO STRIKES HIM**

September 12 is the date fixed by the board of supervisors for an election which will be held at San Juan Capistrano for the purpose of deciding whether a sanitary district will be established there.

A petition signed by the Rev. St. John O'Sullivan and thirty-two other residents of the San Juan Capistrano district was before the board yesterday afternoon. Testimony of several persons was heard relative to the need of such a district.

At the time of the election a sanitary assessor and members of the sanitary board will be voted on. The one and only polling place will be situated in Woodmen's hall, San Juan Capistrano.

The boy was rendered unconscious. He was removed to the Anaheim hospital, where he is reported to be in a critical condition with a slight chance for recovery.

**Skull Fractured**

It is understood that the boy sustained a fracture of the skull, and that an arm and a leg were broken.

Witnesses to the accident were Mrs. N. G. Hall and her daughter, Marie, 927 Los Angeles street, Anaheim, and Mrs. George Mattison, proprietor of an oil station near which the accident occurred.

According to the witnesses, Stokes was more concerned in getting the names of witnesses than he was in seeing that the boy was removed to a hospital.

**Officers Investigate**

It was stated that the boy lay in the street for twenty minutes before he was removed to the hospital.

Constable Jessie L. Elliott and B. Armstrong, Los Angeles private detective, passed the scene of the accident a few moments after it happened. They made a brief investigation and report.

It was rumored that a manslaughter complaint would be brought against Stokes, the driver of the car. His machine was slightly damaged by an impact with the street curb.

**Elaborate Arrangements**

Elaborate arrangements have been made for the entertainment of the visitors during their stay in Los Angeles. Intimate views of motion picture making, sightseeing trips, golf, dinners, smokers, balls and luncheons have been so arranged that they will not interfere with the convention sessions.

That co-operation between banking and banking interests will go a long way toward restoring normal conditions in the country is the belief of the officers of the association, who feel that the coming convention offers the means for such action.

**PUTS KIBOSH ON GIRLS' ROLLED HOSE**

CHICAGO, Aug. 10.—The United States Labor board made a third important ruling in the Pennsylvania railway situation when it ordered a secret ballot of employees to select a committee for negotiation of working agreements with the road's officials. This order cancels agreements reached by the road with a committee elected by a general vote, and which appeared to be working satisfactorily to everybody except the union-labor heads.

With but one day left to hold the conference under the board's order, Pennsylvania officials here said that no conference had been held to their knowledge and they had no arrangements for conferences tomorrow. The Federal wage board ordered that the conference should be held on or before August 10 to arrange a plan of election to insure the absolute secrecy of the ballot.

Reports in railroad circles here were that the Pennsylvania was not expected to take any action to comply with the board's decision.

**EUCARISTIC CONGRESS**

QUEBEC, Aug. 10.—The next Eucharistic congress will be held in this city in 1922, according to an official statement issued by his Eminence Cardinal Begin, of Quebec. The occasion of this congress will bring to Canada a gathering of priests and ecclesiastics such as has seldom been seen outside of Rome in modern times, it is expected.

**ROLLED DOWN HOSE BIND THE LIMBS**

VERNON, Aug. 10.—The silks and result in impaired or retarded circulation. This in turn produces ailments of the feet that put many young women in the chiropodist's chair.

Officers were elected to head the national association for the ensuing year as follows: W. V. Ramsburg, Minneapolis, president; Nicholas Von Scull, Chicago; Summer Johnson, Des Moines; S. Ruthford Levy, Philadelphia, and W. F. Leick, Los Angeles, vice-presidents; E. K. Burnett, New York, secretary-treasurer.

Chicago was chosen for next year's convention.

**BRISK BUSINESS**

VERNON, B. C., Aug. 10.—The fruit industry of the Okanagan and other interior districts of British Columbia uses over 400 cars of box trucks in the season. In a carload there are approximately 8,000 sets.

SAN FRANCISCO MARKET

SAN FRANCISCO, Aug. 10.—Poultry: Broilers, 22¢@35¢; large hens 24¢@26¢; ducks, 18.

# PASSENGERS OF WRECKED SHIP SAFE. REPORT

**United Press Leased Wire**  
SAN DIEGO, Cal., Aug. 10.—Wireless dispatches to the flagship Charleston today stated that the U. S. destroyer Farquhar is standing by the wrecked Pacific Mail liner San Jose at San Pablo reef, waiting for the arrival of the merchant liner Griffid. Upon the arrival of the Griffid today, an attempt will be made to float the San Jose at high tide.

The thirty-three passengers of the San Jose, these dispatches stated, are still in camp on shore. None was injured in leaving the ship and all are said to be in good health. A number of these passengers are women.

The unusually calm weather alone prevented serious loss of life, in the opinion of shipping men here, as the seas at San Pablo are ordinarily very rough.

The San Jose's forward hold is filled with water, today's dispatches stated. She is not considered too badly damaged to proceed to this port, however, in case the assisting steamers are able to float her.

These radio dispatches were received from the rescue destroyer Farquhar at the scene of the San Jose wreck by Eleventh Naval district headquarters here:

"Arrived 6:15 p. m. San Jose hard and fast aground. Very doubtful whether she can be pulled off. Passengers are comfortable ashore. Am taking mail and baggage aboard. Will attempt to pull her off at 2:30. Farquhar."

"San Jose has eight feet of water in both forward holds and water is gaining on pumps. Due to danger to bulkheads carrying away, no attempt will be made to pull her off until arrival of Griffid at daylight. Am standing by. Smooth sea. Farquhar."

**TWO BODIES FOUND AT SCENE OF TRAGEDY.**

**SAN FRANCISCO**, Aug. 10.—The steamer Oleum, an oil tanker, arrived in San Francisco early today, bringing the bodies of two of the dead from the wreck of the steamer Alaska. The bodies were picked up yesterday floating off Blunt's Reef where the Alaska was wrecked.

One of the bodies was that of a girl, and on it was a wrist watch bearing the initials "R. G. H." It was believed to be the body of Miss Ruth Host of Portland, Ore., who is listed as missing.

The other body was that of a man aged about forty. On it was a card carrying the name of Dr. J. A. Morse, Spokane. The name of Morse, however, does not appear among the missing.

There are approximately 17,000 motion picture theaters in the United States.

Speedometer Repairing at L. V.

## TODAY IN CONGRESS

**United Press Leased Wire**  
Senate

Considers sundry minor bills. Eugene Myer, director war finance corporation, continues testimony on administration's railroad relief program before the interstate commerce committee.

Hearings on American valuation plan in tariff bill continues before finance committee.

### HOUSE

Ways and means committee continues work on tax revision.

Interstate commerce committee begins consideration of administration railroad bill.

Judiciary committee expects to report bill to prevent former government officials, now practicing attorneys from prosecuting claims against government.

## SHORT ILLNESS IS FATAL TO RETIRED CIVIL WAR ADMIRAL

**SAN FRANCISCO**, Aug. 10.—

Retired Admiral George Fink Kutz, U. S. N., retired, the oldest living officer of that rank, was dead here today.

Admiral Kutz served with the Union navy during the Civil war and had been on the navy retired list since 1889.

Death came suddenly late yesterday while he was in his apartments at a San Francisco hotel.

## SEX CASE WILL BE TRIED HERE TOMORROW

Continued from time to time during the past six months, the Merrill Porter case is scheduled to be tried before a jury in Justice Cox court tomorrow morning, beginning at 10 o'clock.

Porter, son of the Rev. F. T. Porter, pastor of the First Christian church, is charged with driving an automobile on Anaheim boulevard at a speed of 56 miles an hour.

The defendant was arrested January 27 by Traffic Officer H. S. Warner. The last continuance of the case was granted when Porter demanded a jury trial.

### WIFE SEEKS DIVORCE.

Lola W. Fenwick of this city today filed suit for divorce against Charles L. Fenwick, on the ground of desertion. The couple were married March 23, 1913, in St. Louis, Mo., and separated April 10, 1920. There is one child, a girl of the age of 6. No community property is involved in the issue.

**MOUNTED PATROLS SEEK FOR WRECK VICTIMS**

**EUREKA**, Cal., Aug. 10.—Mounted patrols resumed their search on the beach at Cape Mendocino today for additional bodies which might be washed up from the wreck of the steamer Alaska.

A total of twenty bodies now have been recovered.

## LEADERS ACCEPT HARDING PLAN FOR TAX CUT

**United Press Leased Wire**  
WASHINGTON, Aug. 10.—The difficult problem of reducing federal taxes in the face of huge future demands on the treasury appeared solved today.

A tax bill to yield \$3,075,000,000 or \$600,000,000 a year less than the present war revenue act was the aim of the house ways and means committee as the result of the prompt intervention of President Harding in the tax tangle. The president in a two hour conference with house leaders last night proposed a program, promptly accepted by house leaders.

It was:

Reduce government expenditures by \$520,000,000.

Obtain several hundred million additional through concerted drive to collect back taxes and the sale of larger quantities of war materials.

Repeal the excess profits tax and reduce the high surtaxes to a minimum of 32 per cent as of January 1, 1921.

Repeal the nuisance and luxury levies as of January 1, 1922.

Cut transportation taxes in half on January 1, 1922 and repeal them of January 1, 1923.

Substitute only an increase in the flat corporation income tax from 10 to 12½ or 15 per cent.

## TURTLE RACING AT FLORIDA RESORTS

**MIAMI**, Fla., Aug. 10.—Loggerhead turtle racing, a sport regarded by natives of the Bahamas as Cubans regard cock fighting and Americans baseball, is to be imported into Florida by local sportsmen. Turtle races never have been held in the United States, local authorities assert.

In racing, the huge reptiles are harnessed almost in the same manner as horses, the riders don bathing suits, mount their backs and drive in the most approved jockey style. The turtle may be so handled by the driver as to prevent its diving, but the rider finishes the race thoroughly soaked.

Racing turtles are the largest of the species that may be obtained. The entries to face the barrier here were taken along the Florida keys after a search of several weeks.

### NO BIDS RECEIVED.

No bids having been received by the supervisors yesterday on the Bay City school district bonds of \$25,000 the time for receiving bids was continued to the next regular meeting, August 16, at 11 a. m. The supervisors have been attempting to sell the bonds for about six weeks.

**TO TAKE VACATION.**

No probate or law and motion matters will be heard in the superior court next Friday or on Friday, August 26, as Superior Judge R. Y. Williams will be on his vacation on these two dates. He will hear the probate calendar August 19 and again on September 2.

**MILLIONS OF OLD ARMY BOOT SOLES**

Millions of old army boot soles have been utilized in England as fertilizer.

## Betty Lou Goes Shopping

REALLY, I do think it's the most fun to "explore" the shops here. And I find so many things that are just what I want that I become better pleased with the stores of Santa Ana every time I go shopping. I think we're certainly lucky to be able to get such service right in our home town.

BETTY LOU.

I WAS talking to MADAME MARIE LOUISE in her delightful little hat shop the other day, and she was telling me about her fashion cable service from Paris. Through this service, she gets advance notice of the very latest in millinery, so that she can always give her customers the assurance that they are wearing just what is being worn in Paris. Her shop is at 318 N. Sycamore, you know, and she does have the prettiest hats I've seen anywhere.

YOU know one of the joys of my shopping is the matinee at the PRINCESS THEATER. They run two shows there in the afternoon, from 1:30 to 5:00, and it makes it so that I can drop in when I'm through shopping, even if it is late in the afternoon. It's so cool and restful there, too, and they always show the best pictures as soon as they're released. In fact, our whole family boasts for the Princess, from Jerry to Bobby.

—Hang your organdy dress on the porch over night, and the creases will disappear as if by magic.

YOU know, I have discovered the most wonderful place to get all kinds of china and pottery and cut glass. Really, it's almost like a visit to wonderland to go into D. L. ANDERSON CO.'S delightful china store. They have the most exquisite lustre ware and their diamond cut glass is something to almost worship. I know now just where I'm going to go for Christmas gifts this year.

JERRY got the best looking bathing suit at the WARDROBE yesterday. And it's a Jantzen, too, which means that it won't stretch the way the ordinary suit does. Jerry certainly is strong for the Wardrobe; he gets all his clothes there, and his hats, too.

—Chopped green pepper makes a pleasing addition to tomato salad.

## AUTHORITIES SCOUT MEXICAN REPORT OF SPURGIN'S CAPTURE

**CHICAGO**, Aug. 10.—Conflicting reports were received today regarding the apprehension of Warren C. Spurgin, missing president of the defunct Michigan Avenue Trust company.

Word from Chihuahua City, Mexico, said police there had taken Spurgin into custody, while he was hiding on a ranch belonging to a friend.

Other advices from Mexican officials disputed these reports, saying that while they believed Spurgin was hiding near Chihuahua, he had not yet been captured.

Officials here in charge of the investigation into the banker's affairs did not believe he was captured.

The Stoddert, Lieut. G. Fahrion in command, had just started a six-hour speed and endurance test, off the coast, when the Narragansett was sighted, her ensign flying upside down. The little craft was thirty days out from Lapaz, completely out of gasoline and her water very low. Both water and gasoline was supplied to the Narragansett and the destroyer continued on her speed test.

The Narragansett was off the course of the coast fishing smacks and had not the destroyer sighted her might have drifted helpless for days.

## RUN DOWN NEW CLUE IN HUNT FOR PRIEST

**United Press Leased Wire**

**SAN FRANCISCO**, Aug. 10.—Mountain trails in the high Sierras, munched over today by police squads, proved another string of blind alleys in the pursuit of the mysterious abductors of Father Patrick Heslin, who has today been saved from possible death by the U. S. destroyer Stoddert.

Parties sent out from Truckee, Cal., and Reno, Nev., found several mountain camps, but nothing to verify reports of hunters to San Francisco police that a band of Italians was holding an old man prisoner in the mountain region.

The incident was set down as another of the dozens of rumors that have sent detective squads and posses scurrying to the Big Basin forest, the Portola caves of the Pacific and over the hills near Colma ever since the priest vanished from his church of the Holy Angels over a week ago.

Since then sensational rumors have multiplied, but authenticity in connection with the case seems to have fitted as completely as the priest himself.

## JURY HEARS EVIDENCE IN DRUNKENNESS CASE

**A. C. Dingle** of Anaheim was on trial before a jury in Department No. 2 of the superior court today on a charge of driving an automobile while intoxicated. The alleged offense occurred in Anaheim.

The principal witnesses against the defendant are John Davis and Patrolman Moody of Anaheim.

The great part of the forenoon session of court was taken up in the selection of the jury.

### TO TAKE VACATION.

No probate or law and motion matters will be heard in the superior court next Friday or on Friday, August 26, as Superior Judge R. Y. Williams will be on his vacation on these two dates. He will hear the probate calendar August 19 and again on September 2.

### WOMEN OF WISCONSIN BEEN GIVEN THE RIGHT TO WEAR TROUSERS AND CHEW TOBACCO.

Women of Wisconsin have been given the right to wear trousers and chew tobacco. Will they take advantage of it?

**THE DECORATORS** just finished with the house today, and you should see how nice everything looks. MITCHELL'S did the work, you know, and they certainly made a success of it. The wallpaper we got there is beautiful, and all together, we feel almost as though we had a new home right here in the old house.

—Cheese will stay fresh if kept in a glass jar with a piece of oiled paper fastened over the top of the jar with a rubber band.

**ANITA** bought herself such a good-looking pair of white sport shoes at WATKINS' BOOTERY this week. You know they're having a sale of broken lines, and Anita says there are some perfectly wonderful values. Some shoes that sold as high as \$19.50 are being offered, in a limited range of sizes, for \$7.85 and \$8.85. I think at that rate, I'll get another pair of sport shoes for myself at Watkins' Bootery.

—When you hike, take a supply of lime drops along. They help quench thirst when there is no water.

YOU know, it's such a pleasure to buy groceries at GERRARD BROTHERS. You're never bothered by a clerk trying to sell you something "just as good," for the stock is arranged alphabetically on the shelves, and you make your own selection. Their prices are so low, too. I've saved considerably on our grocery bill since I've been trading there.

—Jerry did the sweetest thing the other night. Really, he's been so nice lately I don't know what to make of it. He brought me home a perfectly lovely box of JAMES' CONFECTIONERY chocolates. My, but they were delicious. I wish he'd "get the habit," for I certainly did enjoy them. It actually brought back court days.

## The Social Mirror—Clubs, Lodges

**Popular Orange Couple Wed In Mission at San Juan Capistrano**

**Miss Lucille Brothers Is Inspiration for Pretty Luncheon-Shower**

In the picturesque old mission at San Juan Capistrano, at 9:30 o'clock yesterday morning, Hazel L. Schaffert, of Orange, and Mr. George Maag, of Orange, plighted their troth before the Rev. Father Henry Sunmelen, of the St. Joseph's Catholic church of Santa Ana.

The bride wore a smart navy blue suit of the new tailored model, with a runner to match, and corsage of Cecile runner roses.

Mr. and Mrs. Henry Maag were the attendants.

The bride's parents, Mr. and Mrs. Henry Schaffert, of Orange, and the groom's parents, Mr. and Mrs. P. A. Maag, and sister, Miss Mary Maag, witnessed the ceremony.

Immediately after the service the happy couple left on a motor honeymoon trip, probably to Coronado, and will be at home in a few days, at Orange.

Just as the guests were leaving they were served delicious punch.

### Personal

Mr. and Mrs. E. C. Porterfield, of Albuquerque, have arrived for an extended visit with Mr. Porterfield's sister, Mrs. John A. Matson, 605 West Second street. During their stay, Mr. Matson plans to take his vacation from his duties at the Cadillac agency and the party will go to San Diego and other points in the Southwest.

Mr. and Mrs. E. A. Porterfield, also of Albuquerque, parents of Mrs. Matson, who came here to be with their daughter at the time of her recent serious operation at the Santa Ana hospital, have returned to their New Mexico home. Mrs. Matson is fully recovered from the effects of her illness and is now anticipating an early occupancy of the new home which she and her husband are building. During her absence from her post at the Y. M. C. A. office, her place is being filled by Miss Kathleen Owens.

**STEAM DISPLACED ON ITALIAN ROADS**

ROME, Aug. 10.—Italy's electrification of her state railways is proceeding with a rapidity that is surprising the most optimistic.

When the task is last completed, Italy will have taken her first definite step toward freeing herself from virtual slavery to whatever foreign country can supply her with coal—to say nothing of greatly improving her financial situation by diminishing one of her biggest and most expensive items of importation.

Cuba has 1,250,000 tons of sugar ready for shipment.

**JAPAN POSTPONES SIBERIA EVACUATION**

RIGA, Latvia, Aug. 10.—Japan has postponed her promised evacuation of Siberia until stability is restored, says a wireless message received here today from Chita, the seat of government of the Far Eastern republic of Siberia.

Think of "EXCELSIOR" when you want milk, cream and ice cream.

### What Southern California Woman's Clubs Are Doing

The Misses Gertrude and Louise Montgomery entertained yesterday with a lovely luncheon-shower, at their home on North Main street, complimenting Miss Lucille Brothers, whose marriage is to be an event of the early fall.

The guests were twenty of Miss Brothers' most intimate girl friends, who, upon arrival at the Montgomery home, were served a dainty two-course luncheon at prettily appointed tables, a pink and blue color scheme predominating.

A clever wedding game, originated by one of the hostesses, occupied the afternoon. Miss Ruth Coons, of Anaheim, captured the first prize and Miss Marjory Warner, the consolation.

At the close of the game the happy little bride elect was showered with many beautiful gifts for her green box.

The officers of the coming year are: Mrs. Charles R. Dillman, president; Mrs. W. J. Richardson, vice-president; Mrs. A. S. Hewes, recording secretary; Mrs. D. F. Bartlett, corresponding and federation secretary; Mrs. Frank Ward, treasurer, and Mrs. Charles Gibson, auditor.

The chairman of the various committees through which the work of the club is carried on are: Philanthropy, Mrs. L. F. Straight; music, Mrs. Everett McKnight; program, Mrs. M. C. Hurlbut; hospitality, Mrs. Edward Burton; home economics, Mrs. Eveleen White; press, Mrs. W. A. Hawkins; membership, Mrs. W. W. Keppehousing; Mrs. George A. Herrick; courtesy and resolutions, Mrs. Jennie Bradford; literature and art, Mrs. George A. Daniels; civics and legislation, Mrs. D. G. Gibson; historian, Mrs. E. H. Morse.

**Social Calendar**

**Popular Los Angeles Girl Weds San Jose Man at Home of Sister Here**

The nuptials of Miss Lydia May Browning, of Los Angeles, and Mr. Frederick William Sinclair, of San Joes, were solemnized at the home of the bride's brother-in-law and sister, Mr. and Mrs. W. F. Menton, 207 1-2 North Birch street, Monday morning, at 11:30 o'clock.

The room had been transformed into a solid power of ferns and palms, forming a charming background for the fluffy lavender tamarack and huge pink dahlias.

The bride wore a charming frock of cream-colored shantung silk, heavily embroidered with braid, and a dainty corsage of pink Cecile Brunner roses and small blue delphinium.

The huge inverted bowl lights in the living room, completely covered with a mass of asparagus ferns, formed a canopy beneath which the happy couple stood while the Rev. Perry F. Schrock, of the First Congregational church, read the pretty service.

The bride's three sisters and their husbands and the very closest friends of both the bride and groom were the only guests.

Following the ceremony a dainty three-course wedding breakfast was served at a beautifully appointed table, by the two adorable and efficient Brunner twins, the little Misses Mary and Marian. Places were laid for the following: The bride and groom; Messrs. and Mesdames John A. Zimmerman, of Pasadena; Robert B. Macalpine, of Whittier; W. F. Menton; Miss Friends Peacock, of Los Angeles, and Mr. E. J. Young, of Los Angeles.

Mr. and Mrs. Sinclair left in the early afternoon on an extended honeymoon trip to Lake Tahoe, Sequoia park and Yosemite, and will be at home after September 1, at San Jose, where the groom is cashier of the Growers' bank.

The bride is a physical training and dancing instructor, and has been on the faculty of several prominent private schools in the vicinity of Los Angeles, Pasadena and Redlands for several years.

## CROWDS ATTEND ORANGE'S AUTO SHOW OPENING

To the accompaniment of lively music by the Orange County Automobile Trades' association band, the Midsummer Motor show opened in the plaza at Orange at 2:30 p.m. today.

Hundreds of men, women and children from practically every city in the county were present to drink in the beauties of the big automotive exhibition and the crowd grew as the afternoon wore on.

Staged under the auspices of the Orange County Auto Trades association, the show was planned to form a diversion somewhat out of the ordinary for the time of the year.

"We expect 5000 persons to view this exhibit," said Bob White, chairman of the arrangements committee. "We canvassed the county to insure the success of the show, and the steady stream of automobiles flowing into Orange indicates that it is a success."

**Carnival Effect**  
Red, white and blue pennants strung across the plaza gave a carnival effect to the opening hour of the show. Approximately 100 cars occupied the spaces reserved for dealers, and added to the color scheme with their newly painted bodies. Cream-colored roadsters, limousines of stately black or deep blue and maroon-tinted touring cars, stood side by side with trucks flaunting vivid reds and yellows.

The automotive rainbow apparently was complete, but, said the committee, tonight the entire scene will be transformed into a magic display by the system of red, white and blue lights, whose lifeless globes were reflecting the sun's slanting rays.

Under these lights, strung for the occasion, the exhibit is expected to appear at its best. Their rays in turn will be reflected by the plate and prism glass windshields and headlights of the cars.

The Auto Trades association band is to occupy the bandstand built at the corner of the plaza. Entertainment tonight includes a concert by the band, and songs by local talent.

### Look After Guests

To insure the comfort of their guests, the committee had placed a plentiful supply of seats before the bandstand.

Traffic was today detoured around the plaza, which was roped off at an early hour to allow the motor car dealers to arrange their exhibits. In addition to the automobiles, trucks, tractors and motorcycles, displays of auto accessories and camp equipment occupied exhibition space.

On the committee which handled the arrangements for the show were Bob White, chairman; Stanley Manur, Orange; Harry D. Riley, Anaheim; and Herbert O. Davis, secretary of the Orange County Auto Trades association.

### Exhibitors' List

Among the dealers who reserved space in the plaza and the cars they exhibited were: Bob White, Franklin, Liberty; Brown & Bowles, Santa Ana; and Harry Riley, Anaheim, joint exhibitor; Studebaker; J. E. Headley, Paige; Reid Motor Company, Chevrolet; Charles H. McCausland, Briscoe and Chalmers; Townsend & Medberry, Hudson, Essex and Marmon; Charles L. Davis, Chandler and Cleveland; Edgar & Hayes, Oakland; Knox & Stout, Ford and Fordson; Cadillac Garage company, Cadillac and Hupmobile; West Auto company, Reo; Christian Brothers, Santa Ana, and Turton & Lumden; Anaheim, joint exhibit, Maxwell; Damewood & Garraway, five-ton Mack truck, with a three and a half-ton Mack as load; May Motor company, Nash; Santa Ana Overland company, Overland and Willys-Knight; Artz & Durston, Haynes; John L. Wheeler, Cleveland tractors; Leach-Biltwell Motor company, Los Angeles, new model; and E. G. Stinson, G. M. C. truck.

## PRISONER REFUSES CHANCE TO ESCAPE

Given an opportunity to "skip the country" after he had received a sentence of six months in the county jail, O. Bentz, an itinerant, convinced the authorities that he is not the least bit adverse to "doing a stretch" in the Hotel de Lacy.

Bentz was picked up by Deputy Sheriff Roy Ballard who found him roaming about from place to place without any apparent reason therefor. Several housewives in the north end of the city had been solicited by the tramp for a "handout."

Brought before Justice of the Peace Cox, Bentz frankly admitted that he was a tramp, and that he was not especially fond of work and that he did not mind going to jail. Judge Cox gave him six months.

After receiving the sentence Bentz told Judge Cox that he had left some of his personal trinkets at a remote spot on the banks of the Santa Ana river and he wanted "leave" to go back and get them.

Judge Cox let him go after his belongings on his solemn promise that he would return and serve his sentence.

"You'll never see that man again," said Deputy Sheriff Theo Lacy Jr., who happened to be in the justice court.

"Oh yes I will," said Judge Cox. "You just wait and see."

An hour later the tramp appeared at the county jail. Judge Cox called the jailor by telephone and asked if the man were there. When informed that he was he issued the necessary commitment papers.

And O. Bentz is assured of board and lodging for the next six months.

## STAGE SET FOR POLL FIGHT IN BIG OIL ROW

Dissatisfied stockholders of the Huntington Central Oil company were today preparing final movements here for the decisive battle to be waged in Los Angeles tomorrow in their efforts to oust what they charge is "the family circle" control of the directorate of the concern.

The question has simmered down to whether the dissatisfied stockholders can control the vote of enough stock tomorrow to put into effect a majority of directors in sympathy with their actions.

The holders of proxies for the stockholders will vote for a new board of directors at the Music Art studio, 233 South Broadway, Los Angeles, tomorrow morning at 10:30 a.m.

### Many To Be Present

Many persons from Santa Ana and the rest of Orange county who are interested in the outcome of the election planned today to be on hand for the poll battle, according to H. J. Selway, who has acted as chairman of the meetings held by the dissatisfied stockholders.

The object of those desiring a new directorate will be to elect tomorrow four men, Arthur Burdick, Huntington Beach, Charles E. Garrett, Los Angeles, N. B. Battles, Los Angeles and Grant M. Lorraine, Alhambra, as new members of the board of directors of the company and thus control a majority of the board. In this way, J. R. Woodward, chairman of the company and chief stockholder, would find himself unable to control the actions of the company in the field.

**Charges Hurled**  
The Huntington Central squabbles arose from charges made against the Woodwards, who have apparently the controlling interest in the company, "that the business had been mismanaged, that incapable men had been placed in charge of the field work and that none of the directors except the 'family circle' was consulted about the affairs of the company."

These charges came after the Huntington Central well No. 1, which had come in as a producer, suddenly struck sand and after a one-cent assessment was levied by the directors against each share of stock.

The dissatisfied stockholders then called a mass meeting, retained A. W. Rutan of Santa Ana as their attorney and proceeded with plans to force the directorate by court action to call an election of directors. The board of directors, however, voted July 21 to call an election for a new board of directors tomorrow.

## WOMAN'S LOT CASE UNDER ADVISEMENT

Two verdicts, both of which are advisory to the court, were rendered by the jury in the civil action brought by Miss Mary Stuart, Los Angeles school teacher, against Ray Walker and W. Frank Linder of Huntington Beach and the Midway Petroleum company for a revision of contract entered into between the plaintiff and Walker for the sale of lot which she owned in the beach city.

Miss Stuart alleged that Walker obtained an option on the lot through fraud, misrepresentation and concealment in pretending that he wanted it for a friend who proposed to raise corn. Walker gave Miss Stuart \$50 to make the deal binding. He later sold the lot to Frank Linder for \$10.

The plaintiff's price on the lot was \$700. While she claimed that she had received nothing more than the initial payment of \$50, it is understood that the remainder of the purchase price was held in escrow. Miss Stuart sought to rescind the contract when she learned of oil drilling activities in proximity to the lot.

The jury found that the lot was of the value of \$700 October 19, 1920, the date of the alleged contract of sale, and that Walker procured the lot by fraud, misrepresentation and concealment.

The court fight was an equitable action on the part of the plaintiff. The defendant filed a cross complaint for specific performance. Miss Stuart, according to Attorney L. A. West, associate counsel for the plaintiff, made a tender of revision of the contract and the defendants refused to accept.

It is understood that the issue will be settled next Friday morning. Judge West has the case under advisement.

## BOYS' CAMP OPENS IN SANTIAGO GLEN

Opening with a bang, which is the accepted way for all boys' camps to open, the first of the series of three August camps, sponsored by the Orange County Y. M. C. A., began in Santiago canyon today.

A group of boys from various sections of the county, under the leadership of A. J. Raftt, assistant county secretary of the Y, took possession of the mountain cabin with all the paraphernalia needed for a three days' outing.

The location of the cabin in a glen of the canyon about a half mile above the Modjeska property is an especially pleasing one, and there the Y has established a group of four floored sleeping tents, a rustic dining room and a well equipped kitchen in addition to the main cabin with its rustic finish and its fireplace.

The present camping period will end next Saturday and the second one will begin Tuesday, August 16, and will last until the following Friday while the third and last for the season will be August 23 to 26.

## BEACH FRIENDS PUT UP \$1000 BAIL FOR MAN ARRAIGNED HERE

R. C. Worsdell, who was arraigned in the justice court here Monday afternoon on two complaints, one charging embezzlement and the other fraud, today is at liberty on \$1,000 bail, put up late yesterday by two of the defendant's friends who came from Huntington Beach.

Worsdell was arrested in Los Angeles. His preliminary hearings have been set for August 26 at 2 and 3 p.m.

## OIL FIELD WORKERS AT BAY CITY MEET

Orange county oil field workers were represented today at the meeting of the California district council of workers' unions which opened at 10 o'clock this morning at San Francisco. Results of the conference, according to the notification, will not be given out until the delegates return to their locals. They were advised to "say nothing and listen to nothing."

The meeting comes within twenty-four hours of word from Washington, D. C., that one of the largest employers of oil field workers on the Pacific Coast announced its intention to continue with the present wage scale until the dispute, precipitated by oil operators, is arbitrated by a government representative.

All workers here received the report as an indication that the lead of the company will be followed by oil operators in general, as it emanated from the Department of Labor. Should their assumption prove correct wages will not be reduced \$1 a day, September 1.

All operators stated their intention of making this wage reduction at a recent closed meeting. Leaders of the union oil field workers, however, refused to recognize the edict until workers joined them in the presence of a third party representing the government, which has been customary for several years in arranging wage scales for the ensuing year.

## ASSYRIAN CHRISTIANS ON THEIR WAY HERE

WASHINGTON, Aug. 10.—More than 1000 Assyrian Christians fleeing from persecutions by Mohammedans, are on their way to the United States on small sailing vessels. Secretary Davis said. According to information reaching the Department of Labor, he added, they are part of 75,000 refugees who started to march from the interior of Persia to ports, 25,000 of whom died on the way.

## BUNKO SUSPECT TO FACE COURT ON 3 COUNTS

Charged with obtaining money under false pretenses in ten complaints, eight of which were sworn to by Anaheim women, J. K. Woods was scheduled to appear before Justice of the Peace Cox this afternoon for a preliminary hearing on three of the complaints held against him.

Since his arrest and arraignment July 29 Woods has been at liberty on \$3,000 cash bail. His bail was originally fixed at \$9,000. Ben Tarver, attorney for Woods, secured his release on a petition for a writ of habeas corpus and went before Judge Williams with the plea that the bail was too high. The court sustained this and Justice Cox then cut it to \$3,000.

The first complaint against Woods was sworn to by Mrs. Laura B. Resh, real estate operator of Anaheim, who alleges that she gave him \$720 to turn over to an oil syndicate. Mrs. Frances A. Nelson, also of Anaheim, in a second complaint alleges that she gave Woods \$200. George A. Young, Anaheim, claims that he was defrauded of \$100.

It is on these three complaints that Woods will be given a hearing this afternoon. The others are being held in reserve by the district attorney in the event that the defendant is not held to answer to the superior court on the first three.

Woods is alleged to have sold the complainants oil rights on the Mojave desert through misrepresentations. He is said to have led them to believe that drilling operations were under way, that a townsite was or had been marked off and that there was plenty of water on the desert for domestic and irrigation purposes.

## START SEARCH FOR KIWANIS OFFICER

OGDEN, Aug. 10.—George A. Bisarius, president of the Idaho Falls Kiwanis club, and Dr. H. D. Judkin, also of Idaho Falls, who arrived here in connection with the disappearance of Roland E. Mason, secretary of the Idaho Falls Kiwanis club, expressed the belief that Mason had met with foul play and his automobile was pushed into the Weber river to hide the crime.

They said they would organize a search of the hills near the place where the automobile and Mason's effects were found Tuesday night.

On Way to Postoffice

## THEATERS

Santa Ana theater goers at Yost's last night welcomed Miss Louise Dresser, well known musical comedy star, and her husband, Jack Gardner, who presented a genteel and out-of-the-ordinary singing act. Miss

Dresser's work is characterized by a delightful poise which charms her audiences. Gardner's singing is of the "somewhat different" variety. He has methods all his own. The solos of both were well received, while their double numbers, especially the song, "An Alphabet of Melody," which closes the act, made a distinct hit.

Popularity honors seemed to go to Johnson brothers and Johnson, two of whom appear in blackface and the other of whom appears in "straight" makeup. These men, with a finish and minstrel act, floated into the undisputed favor of the audience on an ocean of "jazz" and jokes.

The two burnt-cork men are clever comedians and have more than us-

ual dancing ability.

Perhaps second in popular esteem were Weston and Eline, whose "ad lib" patter and fooling evoked gales of laughter.

Others on the bill are Marian Munson, quick change artist, assisted by Hal Forrest; and Miss Fluette Jeffries, in vocal numbers.

## "BRECKENRIDGE UNITS ARE THE GOLD BONDS OF THE OIL BUSINESS"

### BRECKENRIDGE UNIT PLAN A FAIR DEAL

#### TO THE PEOPLE OF SANTA ANA:

## MERCHANTS HIT AS DES MOINES MINUS CARS

United Press Leased Wire  
DES MOINES, Ia., Aug. 10.—Today, the seventh day of the trolleyless era, there appeared to be a possibility that the people of Des Moines would not welcome the street cars back.

All eyes were turned toward Chicago, where Receiver F. C. Chambers and Owner A. W. Harris were conferring Tuesday and Wednesday. Chambers placed a proposal of the retail merchants before Harris, whereby the service would be resumed at once, on a seven cent fare, and the abolition of the busses. Harris would also have to put up \$300,000 at once to enable payment of immediate debts and resumption of service on a full 132 car basis.

The busses now are giving nearly complete service. Eighty busses were in operation today and everyone was riding.

The first real test of busses against inclement weather came late this morning when a heavy rain began falling.

A suburban amusement park here, which has been making good money through the summer, announced it would close this week, three weeks ahead of schedule as crowds had diminished below the profitable mark.

### WOMAN NEAR DEATH SEEKING FAITH CURE

VENICE, Aug. 10.—Mrs. Cypriana Lopez, 60 years of age, was rescued from the sand at "Misery Square" to the county hospital in Los Angeles, in an apparently dying condition. She had been on the sand for four days and nights seeking an opportunity for treatment by the "Miracle Man."

Relatives brought her to the beach from her home in Claremont. She is said to be suffering from diabetes and other ailments. The attention of the police was called to her this afternoon and Dr. C. W. Creek notified. He ordered an ambulance and she was removed to the hospital.

### TRAMWAY WORKERS OF DENVER ACCEPT CUT

DENVER, Aug. 10.—Announcement of wage reductions affecting 900 employees was announced today by E. Stenger, receiver of the Denver Tramway company. The reductions of approximately 15 per cent were agreed to in a conference with employees and will become effective August 15, Mr. Stenger said.

The company is operating under the "open shop" plan.

Once a Santa Anan  
Always a Santa Anan  
and Reader of the Register

The former proprietor of the Smart Shop, J. Schenken, is now located at Riverside, residing at 176 Ramona Drive. But having once lived in Santa Ana his love for this city and incidentally, for The Register, is strong, as witness the following letter received at this office today:

Riverside, Aug. 8.  
Register Pub. Co.,  
Santa Ana.

Gentlemen:  
Enclosed please find check for \$6.00 for one year's subscription in advance, instead of three months as per your statement. I enjoy your paper very much, and I feel that it is the best paper in the country. Yours truly,  
J. SCHENKEN,

## FARRAR OBJECTS AS LOU LOVES HER ROUGHLY

United Press Leased Wire  
LONG BEACH, N. Y., Aug. 10.—Tellegen turned Tarzan. He started to love her rough. That caused the trouble."

This was the laconic summing up by an intimate friend of both principals in the Tellegen-Farrar domestic shipwreck which is now in the West Chester county courts.

The final smash up came on a day late in July when the famous prima donna visited Tellegen at his fishing shack here, according to the story.

It was their second meeting, say the friends, in ten months and Tellegen forgot the platonic role which friends allege he had played for five years with his beautiful wife.

The little fishing shack, the friends explain, where Bernhard's actor-lover had sought seclusion echoed and re-echoed with the sounds of high voices. Then Farrar, flushed and angry, was seen to hurry from the house, enter her car and start at breakneck speed for New York.

"We passed the afternoon together," Tellegen is said to have told his friends. "What happened will never be told by me."

If candles were made in the form of a cross some people would burn them at all four ends.

The exportation of grapes from Spain amounts to 24,000,000 pounds.

Chioro, grown in Bavaria, is used in Europe as a substitute for coffee.

Sometimes a man's idea of chivalry is to protect a woman against every man except himself.

## NEW BATTLESHIP CALIFORNIA IN NAVY SERVICE

United Press Leased Wire  
SAN FRANCISCO, Aug. 10.—With all military and official ceremonies, the super-dreadnought, California, built in California, was formally commissioned as the latest and most powerful unit in the Pacific fleet, at Mare Island navy yard today.

Representatives of Governor Wikam, D. Stephens, and high naval officials were present when Captain E. L. Beach, commandant at Mare Island, with due formalities, turned over the vessel to its new commander, Captain Henry J. Ziegemeier, and the crew of Californians, men and officers, who man her.

Employees of the navy yard who worked on the battleship, recruits from almost every town and city in the state, enlisted in the crew were present, together with more than 5,000 additional guests.

The program opened with music from the ship's California band, followed by the reading of the orders from the war department for the turning over of the California to its commander and formal naval ceremonies. The ship was then opened for inspection of the public.

Though officially commissioned, the California technically is incomplete, and will not be ready to leave the dock for some time.

With the finishing touches what is admittedly the most modern, completely equipped thing in warships afloat in the Pacific.

### OH, PIFFLE! HERE IS NEW EXCUSE TO DODGE PRISON TERM

LOS ANGELES, Aug. 10.—"Do you know of any reason why sentence should not be imposed upon you?" Superior Judge Conley today inquired of A. E. Stimson, found guilty of passing a worthless check.

"Yes, your honor," replied Stimson, "I have an artistic temperament."

Deputy Public Defender Scott, Stimson's counsel, rose.

"This man, your honor," he said, "is a player of the pipe organ."

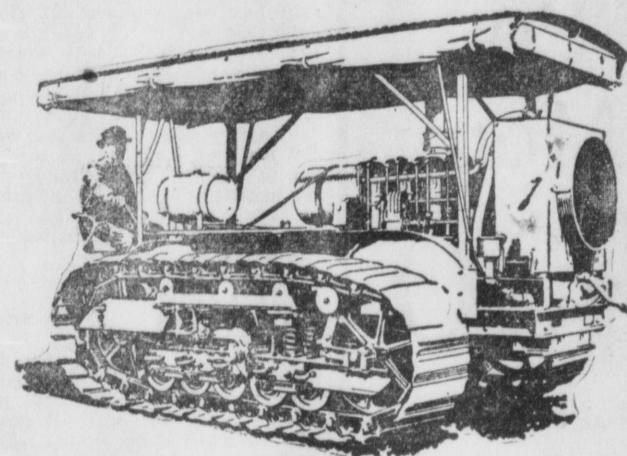

"Has that anything to do with his penchant for passing bad checks?" asked the judge.

"Nothing, except that they have no organ at San Quentin," said Scott.

"Maybe they'll build him one" replied the judge. "At any rate I am inclined to think he will get a chance to ask them personally."

## NO DECISION IN HARBOR PLEA IS REACHED

No decision was reached yesterday by the board of supervisors for or against an appropriation for harbor work for the coming year.

The members of the harbor commission and officers of the Orange County Harbor association asked that a tax levy be arranged so that there will be \$100,000 available for harbor work the coming year.

It was explained to the board of supervisors that some of the money should be used in further strengthening the jetty. At this time there is a railroad running on to the jetty, and additional rock can be hauled at less cost than will be the case if the contractor now on the job tears up his false work.

A statement was given to the supervisors yesterday by Lew H. Wallace, secretary of the Orange County Harbor commission, in which Wallace pointed out that the commission has contracts on salt disposal now that are worth \$98,680. The tax levy for \$100,000 is sought so that the money for doing contemplated harbor work will become immediately available. Some of the contracts making up the sum of \$98,680 are not cashable at this time, yet the harbor work ought to have the benefit of the work that this sum of money can do at this time, said those making the presentation to the board yesterday.

Wallace outlined the harbor silt contracts as follows:

"I wish to add to this financial statement the following:

We have a contract with James Irvine wherein he is to pay \$40,000 for the dredged material placed on his sixty (60) acre fill provided that we lease at an annual rental of \$2400 a year for a period of fifteen (15) years the westerly 30 acres of the sixty (60) acre tract. If we do not lease this area and by so doing bring a return to Mr. Irvine of six per cent per annum on the \$40,000 investment, then he is to pay us \$25,000 cash."

We have a contract with the La Habra Valley Land and Water Company wherein they are to pay us \$15,000.00 cash upon the completion of the contract. Said contract will be completed at the time we finish dredging the turning basin.

We have a contract with the Newport Beach Dredging Company, more commonly known as Stevens and Gleason, wherein they are to deed to us seventeen (17) acres of their ground in consideration of our filling the entire area for them. This land when filled is worth not less than \$1500.00 an acre. This contract will be completed when we finish dredging the turning basin.

We have a contract with the Newport Beach Syndicate for the completion of the filling of their lots fronting on Washington Avenue, for which filling they are to deed to us Lot 23 in block 431, which has a value of \$500.00.

We have a contract covering the filling of odd lots in the same area which will bring us \$380.00 cash when completed.

We have contracts signed by the Balboa Land Syndicate whereby they are to pay us \$1500.00 cash when we complete the filling of their property.

We have a contract with G. T. Stamm for \$1000.00 payable in three years without interest, and with H. R. Hanna for \$1200.00 payable without interest in three years. These contracts are payable before three years if the property is used for subdivision purposes or a portion of same is sold.

We have a contract completed for Wayne Gohl, which has been assumed by Florence E. Williams, in the amount of \$3600.00 payable when the property is made use of, and we have an agreement with James Irvine whereby he is to pay us the rate of six (6) cents per cu. yd. for the area filled below Promontory Point, to be paid for when he uses the property either for sale or subdivision purposes. There is approximately \$10,000.00 worth of material on this property at the present time.

We expect this week to obtain an additional contract with the Balboa Land Syndicate for an additional fill at six (6) cents per cubic yard, the aggregate amount of which we will not know until the completion of the same.

We, therefore, have in sight cash \$41,880.00 which will be increased to \$56,880.00 if we obtain a lessor for the Irvine property. We have \$26,000.00 worth of real estate, \$2200 in contracts due in three years without interest, and approximately \$13,600.00 due in indefinite periods governed solely by the use or subdivision of the property itself. If we were able to realize at once upon all of the dredged material sold, the total would be \$93,680.00.

Respectfully submitted,  
Orange County Harbor  
Commission,  
LEW H. WALLACE,  
Secretary.

### THE VALUE OF DUSTING

The value of dusting lies in the fact that it supplies a most efficient method of fighting plant pests—easily. There is practically no pest here in Orange County that cannot be controlled through expensive, irksome methods. The fact these methods are expensive, disagreeable, and unpleasant to the user and generally slow in their application prevents their popular use sufficiently to dominate the situation. A good dust applied with a good duster does extremely efficient work—cheaply—quickly and pleasantly as compared with the wet methods. NICO-DUST manufactured by the WALNUT GROWERS SPRAY MANUFACTURING CO., is unusually efficient and economical.

### NEWCOM BROS.

### MANY ARE DROWNED IN JAPAN FLOODS

YAMAGATA (Japan) Aug. 10.—Twenty-four persons are reported drowned in serious floods which are raging throughout the prefecture of Yamagata.

Five thousand houses have been submerged and forty bridges destroyed by the floods.

### COUNTY TO SHARE IN \$9,500,000 FUND

Counties of the state will receive \$9,500,000 of state school funds about September 1, Ray Riley, state controller, announced today, according to report from Sacramento. This is the first apportionment, said the report, under the law which increases the state allowance from \$17.50 to \$20 per pupil.

Orange county will receive a proportionate share of this fund, but the amount of its share has not been estimated yet, according to R. P. Mitchell, county school superintendent. He said:

"The apportionment of the state fund is made by the state school superintendent, who receives it from the state controller. It is not made directly on a pupil basis, but on a teacher and attendance basis. "What our share will be this year, I cannot say at present, but must wait for the state superintendent to issue his figures."

The Seminole Indians adopt neophytes into their tribes.

### REPORT STOUT NAMED AS DEFENDANT IN CAR CASE IS ERRONEOUS

The report that J. H. Stout had been charged in a complaint filed here with fraudulently removing and concealing a Ford touring car, was incorrect.

Stout is the complainant in the case and the defendants are William J. Burke and Chester W. Burke.

Stout sold a car to the defendants under a contract, one of the terms of which was that the purchasers were not to take the car beyond control of Stout.

Stout charges that the Burkes not only removed the machine to some place unknown to him, but that they defrauded in two payments.

### NO DECISION ON TRUCK LAW MEETING

Whether another meeting of the committee of Orange, Riverside and San Bernardino counties that drew up the trucking ordinance now before the board of supervisors of this county will be held for the purpose of hearing the suggestions of truckmen and truck dealers for changes in the ordinance had not been determined this morning by District Attorney A. P. Nelson.

Yesterday the truckmen told the Orange county board that they objected to some of the provisions of the proposed ordinance, particularly the provision that limits a truck to an overload fifty per cent above the tonnage rating of the truck.

"I was in Arizona yesterday on business," said Nelson, "and have not had time to look into the matter. Certainly no change will be made in the ordinance as submitted without the other counties are consulted. Probably the tri-counties committee will be called together again."

The Orange county supervisors yesterday took no action upon the request of the truckmen for changes. It was understood, however, that the questions brought up before the board should be decided by the committee of the three counties. Supervisor H. A. Wassum, Nelson and County Engineer J. L. McBride are Orange county's representatives on the tri-counties committee.

### 3 COUNTIES' SOLONS MEET AT RIVERSIDE

Members of the board of supervisors of this county went to Riverside this morning for a conference with supervisors of Riverside and Imperial counties relative to the establishment of a sanitarium for the treatment of tubercular cases.

Last year it was proposed that the three counties act jointly in the project. About two weeks ago supervisors of Riverside and Orange counties were submitted two propositions for sites, one on the Box Springs road near Riverside and the other at Balboa.

The cruise will be made with U. S. Eagle boats 12 and 34. Pasadena's reserve division will join the Orange county men.

Recruiting of the naval reserve is now in progress, and men from 18 to 35 years of age are accepted for all ratings open in the navy, according to Lieutenant Blee.

"Lieutenant Frank Ashmore, Santa Ana medical examiner for the reservists, will examine men who go to his office," Lieutenant Blee declared.

"Formerly reservists had to spend one year at sea. This is no longer necessary. Enlistments are for four years, and the reservist is subject only to emergency call of the president. Other service is voluntary. I will supply recruits with the necessary papers. I can be reached by telephone at my place at Paularino. The number is 361-R-1.

Plans today were ready for the monthly meeting of the garage and machinists' unit of the Orange County Automobile Trades' association to be held tonight at the James

Point, to be paid for when he uses the property either for sale or subdivision purposes. There is approximately \$10,000.00 worth of material on this property at the present time.

We expect this week to obtain an additional contract with the Balboa Land Syndicate for an additional fill at six (6) cents per cubic yard, the aggregate amount of which we will not know until the completion of the same.

# CONCRETE PIPE TESTS SAVING RANCHERS BIG SUMS. CLAIM

Dealer Lauds Demonstrations Started In County by Farm Bureau

## ADVICE BY WAHLBERG

Says Cheap Goods Costly In Long Run, Cause Water Wastage

That the concrete pipe demonstrations started by the Orange county farm bureau will ultimately have the result of saving ranchers thousands of dollars in loss of irrigation water, is the declaration of at least one pipe dealer. Farm Advisor H. E. Wahlberg stated today.

"A good deal of favorable reaction has resulted from the recent demonstrations held in Santa Ana and Fullerton," said Wahlberg.

Farmers who previously bought irrigation pipe on looks and cut rate prices have found upon investigation and in many cases sad experience that the cheap pipe was the most expensive in the long run.

"The only logical way to get quality pipe is to buy on pressure test."

"A pipe that will undergo reasonable pressure has been made of good, clean material — clean sand and gravel."

**Rock Dust Used**

"Rock dust is being used to a considerable extent by pipe manufacturers in the making of concrete pipe in conjunction with cement. This by-product of the cement mill was formerly discarded, but is now used to exceeding advantage in building a strong pressure pipe."

"Porous pipe is not only subject to excessive leakage, but under alkaline soil condition breaks down and rots in a comparatively short time."

The farm bureau has been greatly concerned about the distribution of pipe in Orange county, realizing, from the large number of complaints that come to my office, that miles of poor pipe have been laid.

"A list of manufacturers of reliable pressure test pipes has been compiled by the farm bureau which is available to prospective concrete pipe buyers."

**Many Interested**

"Dealers as well as farmers are vitally interested in the improvement of pipe quality, as may be illustrated by the many letters coming to me commanding the movement. One prominent Orange county dealer said:

"I think when you started testing of concrete pipe you started something that will save the ranchers thousands of dollars in water. I'll warrant you will find out things about the different pipe that will surprise you."

"I hope you keep after this pipe testing until every yard of pipe in the county is tested and the results are published and then advise the rancher to buy his pipe according to the pressure test and percolation test."

"There have always been cheap pipe men who make cheap pipe and sell it cheap. They last for a time,

(Continued on page ten)

## Big Gain Shown In Scope of Farm Advisors' Activities in State

During 1919 the farm advisors in California made 25,116 farm visits to help solve specific problems at the request of the farmers, according to B. H. Crocheron, state leader of farm advisors, a copy of whose annual report has been received here.

During 1920, the report continues, the farm visits so made increased to 26,639. The number of persons who called at the agricultural extension offices in the counties to ask advice increased from 47,306 in 1919 to 57,062 in 1920. There was also a great increase in the number of meetings, from 5479 in 1919 to 8184 in 1920, while the total attendance at these meetings increased from 206,475 to 323,266. During every working day of the year the farm advisors held an average of 27 meetings, at each of which there were present a group of 41 rural persons.

The boys' agricultural clubs increased from the 1919 enrollment of 2084 to 2798, while the number of those who handed in definite records of their work increased from 1249 to 1550. The net profit made by boys from their farm operations in agricultural clubs practically doubled, increasing from \$28,830 to \$59,938.

The boys' agricultural clubs increased from the 1919 enrollment of 2084 to 2798, while the number of those who handed in definite records of their work increased from 1249 to 1550. The net profit made by boys from their farm operations in agricultural clubs practically doubled, increasing from \$28,830 to \$59,938.

## YORBA LINDA PICNIC PLANS PROGRESSING

Progress is being made in the picnic that is planned for Tuesday evening, August 16, at 6 o'clock, when all farm bureau members of Yorba Linda will gather at Orange county park to enjoy a summer session of the farm center under the spreading branches of the live oaks.

August 16 is the regular meeting night of the farm center. The program committee, consisting of Mr. Miller, Mrs. Kellogg, Mr. Holloway and Mrs. Day, has arranged for a delightful evening of music, talks and a dance.

Picnic lunch will be served at 6 p.m. Musical numbers will be given during the lunch hour. Avocado ice cream will be served by the center, the avocados being furnished by Mr. Holloway and others.

A short program of talks will be given by the following:

"The Avocado Department of the Yorba Linda Farm Center," Dr. Lester Keller.

"The Future of the Avocado Industry," C. E. Utz, Tustin.

"A Farm Bureau Avocado Project," H. E. Wahlberg, farm advisor, George Kellogg.

Farm bureau members from other centers who are interested in the subjects on the program, and who want a refreshing evening at the park are invited to participate.

Dancing will follow the regular program.

## APPLE, PEAR CROP TO BE LARGE ONE

PORLAND, Ore., Aug. 10.—Apples and pears will yield so heavily this season in Rogue River and Umpqua valleys that between 1600 and 1800 cars will be moved to market, J. A. Ormandy, assistant general passenger agent of the Southern Pacific lines in Oregon, stated here.

(Continued on page ten)

## PROGRESS MADE BY FARMERS IN LEGISLATION

### CLOSE UNION IS MAINTAINED BETWEEN COLLEGE AND AGRICULTURALISTS

Issuing an open letter from H. M. Wilson, secretary of the state agricultural legislative committee appointed by California farm organizations and women's clubs, in which it is stated that "the farmers are passing through a period in which every possible dollar of saving must be considered," H. E. Wahlberg, county farm advisor, today told a number of forward looking movements made in the interests of the farmers of California.

"Another long step has been taken toward bringing the work of the College of Agriculture more directly to the farmer and along the lines which he considers most important," Wahlberg said. Wahlberg is the Orange county representative of the extension service of the College of Agriculture and the University of California.

**LATEST MOVE**

"The latest move in this direction," Wahlberg continued, "was made at conference recently held in Los Angeles and Berkeley between representatives of the farm organizations and women's clubs and the college authorities.

The agricultural legislative committee, which is composed of representatives from all the co-operative farm organizations in the state, and which was instrumental in getting many laws favoring agriculture through the legislature during the past session, has kept in close touch with the College of Agriculture activities during the past year and has assisted the latter in formulating several of its policies."

**HERE IS LETTER**

The open letter from Wilson to the farmers of Orange county follows:

"The farmers are passing through a period in which every possible dollar of saving must be considered.

The experiment station and the extension service were created to promote the welfare of agriculture. That direct financial benefits may be obtained from these agencies has been thoroughly demonstrated, but the amount of benefit depends upon the degree of contact between the farmers and these agencies.

The working relationship between the farmers and the College of Agriculture in California is probably not surpassed in any state of the Union.

It is a relationship upon which both the college and the farmers are to be congratulated, and although much progress has been made during the past year there is still opportunity for the bonds to be more closely cemented."

The Avocado Department of the Yorba Linda Farm Center, Dr. Lester Keller.

"The Future of the Avocado Industry," C. E. Utz, Tustin.

"A Farm Bureau Avocado Project," H. E. Wahlberg, farm advisor, George Kellogg.

Farm bureau members from other centers who are interested in the subjects on the program, and who want a refreshing evening at the park are invited to participate.

Dancing will follow the regular program.

## ERROR IS MADE IN REPORT SAYS BUREAU

The Farm bureau today again called attention to the fact that due to its mistake in totaling the figures, the winners in two classes in the county dairy cow competition during July were erroneously announced. In Class B, highest individual production, should have been given to S. J. Segerstrom's cow, which produced 82.6 pounds butterfat. In Class C, the best five cows were also found in Segerstrom's herd, averaging 65.9 pounds butterfat.

**RED BLUFF** (Tehama Co.)—The Sanitary Fruit company of this city is overwhelmed with work in the effort to keep pace with the constantly increasing receipts of peaches and pears now rapidly ripening in this district. The company has been shipping two cars of peaches a day for several days, and yesterday three cars were sent out to the eastern market. If help is available the shipments will be increased to four cars a day the coming week and for an indefinite period in the future.

**SYCAMORE** (Colusa Co.)—The ranchers of this vicinity are nearly through harvesting and hauling their grain. The three big ware houses here are full, and A. J. Davis is putting up the last of his crop in the open. The yield is much greater than the quality better than last year.

**OROVILLE** (Butte Co.)—It is pumpkin time here and producers of large specimens of this product are bringing them to the Chamber of Commerce for display. The latest pumpkin to be brought in was grown by G. W. Wallace at his place near Whitewashed Trees. All of the pumpkins appearing thus far are healthy specimens.

**MENDOCINA MAN SUES STATE FOR SHEEP LOST**

**UKIAH**, Aug. 10.—C. G. Mathews has made formal complaint and demand for damages to the state authorities following the loss of sheep whose deaths are alleged to have been caused by improper supervision under state regulations.

The flocks run north of Cloverdale. The sheep were dipped June 8 and again June 21, by an authorized state official. The animals began dying as they left the dip. Out of 325 lambs dipped, 130 are dead and it is expected all of the rest will die. A committee of sheep experts examined the herd and, after exhaustive examinations, reported the lambs were in perfect condition. It is contended that the temperature of the two dippings was 119 to 127 degrees, when it should have been from 100 to 105.

## NEW PUBLICATION READY FOR SENDERS

The following publications were issued by the United States Department of Agriculture during the week ended July 20, 1921:

The Green-Bug or Spring Grain-Aphis. How to Prevent Its Periodical Outbreaks. Farmers' Bulletin 1217.

Soil Survey of Morgan County, Ala. (From F. O. Soils, 1918.)

Journal of Agricultural Research. (For sale only; 20 cents.) Vol. 21, No. 6.

Monthly Weather Review. Vol. 49, No. 4.

A copy of any of the publications listed above, except those otherwise noted, may be obtained free upon application to the Chief of the Division of Publications, United States Department of Agriculture, Washington, D. C., as long as the department's supply lasts. In order to aid the department in giving prompt attention, make your request definite by specifying the distinct class and number of publications desired. After the department's supply is exhausted, publication can still be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., but by purchase only. Send all remittances to the Superintendent of Documents direct, not to the Department of Agriculture.

Dr. Mark Myers, Urologist, 110½ East Fourth, is home and ready to see patients.

Siberia is largely made up of non-Russian peoples.

A number of Australia plants are covered with hair.

## CONCRETE PIPE IS GREAT SAVING, CLAIM

(Continued from page nine)

but finally go broke and 'stick' some dealer. The rancher who buys the cheap pipe is always losing water.

Hopes Results Published

"I hope you publish the results of your tests, and have them available for our dealers to hand out to pipe users."

"In the June 18 number of *The Scientific American* is an interesting article on 'Concrete.' It states that 1-100 part of dirt in the sand will weaken the concrete twenty-five per cent, that concrete worked wet is weakened thirty per cent.

"Concrete pipe is sold in Orange County at a variation of ten cents a foot, and so many men think they have saved just ten cents by buying the cheaper pipe. They fail to think of the leaky pipe they may be getting. I hope you get them to buying their pipe on a test."

"You have started a good thing and I hope you push it along as you are doing with the fertilizers and tractors. Educate the rancher to buy on a test or analysis basis."

Fraternal Brotherhood silver jubilee celebration this week. Orange County day at Huntington Beach Thursday, August 11. All day celebration. Basket lunch at noon. Weiner bake at 6 p. m. Dancing in the evening. Everybody come!!!

Rube Night at Balboa Pavilion, Wednesday, August 10th.

## PITTSBURGH RALLY DEFEATS BROOKLYN

PITTSBURGH, Aug. 10.—Pittsburgh defeated Brooklyn yesterday, 2 to 2, scoring all their runs in the seventh inning, when they knocked Mitchell out of the box. Cutshaw batted for Adams and drove in the tying run and Bigbee sent two more over after Reuther had entered the box. Tierney's error paved the way for Brooklyn's runs in the sixth. Brooklyn ..... 2 10 0 Pittsburgh ..... 4 8 1 Brooklyn, Mitchell, Reuther and Krueger; Pittsburgh, Adams, Zinn and Brotman.

CUBS NOSE OUT GIANTS

CHICAGO, Aug. 10.—Chicago evened the series with New York yesterday by winning the final game of the series, 8 to 7 in a hard fought seven inning contest. Three times the score was tied, the locals bunching hits for their runs, while the visitors were helped with an error and a walk and home runs by Frisch, Burns and Snyder.

New York ..... 7 12 3 Chicago ..... 8 14 1 New York, Toney, Douglas and Snyder; Chicago, Ponder, Freeman, York, Cheeves and O'Farrell.

REDS DOWN PHILLIES

CINCINNATI, Aug. 10.—Cincinnati won three out of four of the series from Philadelphia, taking the game yesterday 7 to 4, mainly through two errors by Monroe, who let in three runs in the third inning. Donahue and Sedgwick were very effective.

Philadelphia ..... 4 8 2 Cincinnati ..... 7 10 1 Philadelphia, Ring, Sedgwick and Henline; Cincinnati, Donohue and Wingo.

BRAVES TRIM CARDS

ST. LOUIS, Aug. 10.—Southworth's triple with the bases full in the seventh inning gave Boston the victory in the final game of the series with St. Louis, yesterday, 4 to 3. Boston ..... 4 11 0 St. Louis ..... 3 8 1 Boston, Oescher, Watson and Gowdy; St. Louis, Walker, Sherdell, North and Ainsmith, Dilhofer.

OAKS DOWN TIGERS  
IN SERIES OPENER

LOS ANGELES, Aug. 10.—Pitcher Winn of Oakland was in rare form yesterday and the visitors easily defeated the Tigers, 3 to 0. Winn let the home team down with six hits while his teammates were touching McGraw of the locals for eight blows that came when they were needed.

Oakland ..... 3 8 0 Vernon ..... 0 6 2 Oakland—Winn and Koehler; Vernon—McGraw and Hannah.

SEALS MAUL ANGELS

SAN FRANCISCO, Aug. 10.—The league leaders won a nifty game from Los Angeles yesterday, 4 to 2. Pitcher Scott of the locals held Los Angeles to five scattered hits. Aldridge was also in good form and let the locals down with eight blows. Both teams played errorless ball in the field.

Los Angeles ..... 2 5 0 San Francisco ..... 4 8 0 Los Angeles—Aldridge and Baldwin; San Francisco—Scott and Agnew.

SALT LAKE DOWNS SEATTLE

SEATTLE, Wash., Aug. 10.—Salt Lake City opened the series by trimming Seattle, 4 to 3. Bromley of the visitors pitched a sterling game, fanning eight of the Indians and allowing but eight scattered hits. Kenworthy tried hard to put Seattle in the lead, knocking out a triple, double and single.

Salt Lake City ..... 4 12 2 Seattle ..... 3 7 2 Salt Lake City—Bromley and Byer; Seattle—Daley and Tobin.

SACS DOWN PORTLAND

PORLTAND, Ore., Aug. 10.—Sacramento defeated Portland in the first game of the series, 4 to 2. Pillette had only one bad inning, the fifth, when Compton's triple, Hale's error, a home run by Pick and a double steal netted the visitors four runs.

Sacramento ..... 4 10 0 Portland ..... 2 8 2 Sacramento—Fittery and Elliott, Cook; Portland—Pillette and Fisher.

Fishing Tackle — Livesey's.

## BIDS ON SCHOOL AT RICHFIELD CALLED FOR

PLACENTIA, Aug. 10.—The Placentia school house is having quite extensive improvements made in the nature of retaining walls, sidewalks, curbs and a good sized house to being started.

The Commonwealth school is also having a general overhauling; it is being painted and many sanitary improvements are being added.

Bids are now open to contractors on the new four-room, hollow tile school building to be erected on the school site at Richfield. There is to be an auditorium in this building with a seating capacity of 250.

At 7:30 p. m., August 15, the contract will be given to the lowest bidder at the Placentia school house.

#### Personals

Miss Elsa Raffi is back at the office of the P. M. O. Association after two weeks' vacation, one week of which she spent at San Diego.

H. R. Blair, Union Oil worker, who was injured last week, is still at the Fullerton hospital, but his hand, which was badly lacerated and broken, is rapidly healing.

#### ROYAL ARCH CLUB ROOMS ARE OPENED

FULLERTON, Aug. 10.—The formal opening of the Royal Arch clubrooms in the Masonic temple was successfully accomplished with a gay company of about 250 men and women to take part in the pleasant program arranged for the event.

A six-piece orchestra composed of Fullerton musicians supplied very satisfactory music for the dancing, and there were cards, billiards and pool for those whose preference lay in those directions.

The guests of the club on this occasion pronounced the rooms very complete and are looking forward to many more good times there during the fall and winter season.

With the formal dedication to the uses for which they were fitted up, the clubrooms will be open daily from now forward for the enjoyment of all the members of the Fullerton lodge.

Friends of the young couple here wish them much happiness.

#### NEVADA MINE MEN WOULD END STRIKE

TONOPAH, Nev., Aug. 10.—Mine electricians, blacksmiths and hoist men on strike since April 16, have voted to return to work, according to announcement from the unions.

They will accept the new wage scale, which calls for a reduction of about 12½ per cent.

The action of these crafts, it was said, practically brings to an end a strike which greatly hampered mining activities in this district. The miners' union will meet tonight to consider a proposal to return to work.

#### "IRISH BIG-HEARTED ENOUGH TO FORGIVE"

MELBOURNE, Australia, Aug. 10.—Archbishop Mannix, active advocate of Irish freedom, has expressed his willingness to take the oath of allegiance to the king, it is reported.

"I hope the negotiations between England and Ireland will result in a settlement which will be honorable to Ireland," said the archbishop.

"The Irishmen are big-hearted enough to forget and forgive the past if peace is concluded."

#### NOTICE TO PARENTS

Any children caught in bathing in any of the S. A. V. I. Company's canals, will be subject to arrest and fine.

Home made candies at home made prices: Nougats, fudges, creams, Lion Candy Kitchen, 211 West 4th.

FIRE UNDER CONTROL

REDDING Aug. 10.—Fire causing \$150,000 damage was reported under control this morning. Several stores, a hotel and an auditorium were destroyed by the blaze that started late yesterday. No one was reported injured.

Carl Rasch, of Santa Monica, spent Sunday with his brother, W. J. Rasch.

Miss Floy Reisch was a guest of Mrs. Grace Ellen Lee on Sunday.

Mr. and Mrs. Linn O. Hanselman and Wayne were visitors at the County park Sunday.

W. A. RALPH, Supt.

#### REDDING, Aug. 10.—During the month of July 3,720,00 trout fry were distributed over the state from the state hatchery at Sisson.

Clasified, the young fish were:

Rainbows, 1,407,000; steelheads, 425,000; brook trout, 483,000; Loch Leven, 1,237,000; brown trout 155,000.

Liggett-Bemis Company will save you money on your lumber bill. Phone 1922, 601 East Fourth.

Peaches—Quality and price to suit you. Harry W. Lewis, 1770 E. 4th.

#### VILLA PARK

SEATTLE, Aug. 10.—Capt. Henry Theilisen, veteran Pacific coast steamboat man, master of the first Klondike river steamer to reach the Klondike in 1888, and widely known Alaskan pioneer, was found dead in the bottom of the shaft of his coal mine in the Kubek district, Arctic circle, July 24, according to a Nome dispatch received here.

For many years Captain Theilisen commanded stern wheel steamboats on Puget sound and the Columbia.

#### TROUT BY MILLIONS PLACED IN STREAMS

REDDING, Aug. 10.—During the month of July 3,720,00 trout fry were distributed over the state from the state hatchery at Sisson.

Clasified, the young fish were:

Rainbows, 1,407,000; steelheads, 425,000; brook trout, 483,000; Loch Leven, 1,237,000; brown trout 155,000.

Liggett-Bemis Company will save you money on your lumber bill. Phone 1922, 601 East Fourth.

Peaches—Quality and price to suit you. Harry W. Lewis, 1770 E. 4th.

#### SAN FRANCISCO, Aug. 10.—Permission for a certificate authorizing construction of a new power plant at Big Creek, Fresno, was requested of the state railroad commission here by the Southern California Edison company.

The company has two power plants at Big Creek at present, and said a third is needed to supply the demand for power, which is greater than the corporation's supply. The request also asks for permission to build transmission lines to connect the new unit lines now carrying power to Los Angeles.

#### ASKS PERMISSION TO BUILD POWER PLANT

Are You Satisfied

When you take time to stop and think it over, are you satisfied that you are making real progress? Are you growing in ability and resourcefulness or are you merely marking time—perhaps losing step with the procession?

The intelligent use of a Checking and Savings Account will make the control of your expenses a fairly simple matter—will make your personal bookkeeping very easy. The other advantages which you will derive from an association with this strong personally helpful bank will also be of great value to you.

## ORANGE COUNTY NEWS

"THE BIGGEST LITTLE  
COUNTY ON EARTH"

## STORM-WATERS CONTROL IS DISCUSSED

LA HABRA, Aug. 10.—At a special meeting of the La Habra chamber of commerce, the matter of controlling the storm waters, that have troubled this town for several years was fully discussed and ways and means decided on for the control of same. Engineers from communities that had solved the storm water problem were consulted and estimates given as to cost and feasibility.

It was decided to build Cypress streets so as to carry the water from the east to the Coyote creek. Hiatt street could then be graded and curbed to take care of all storm water coming through the town.

There will be about two miles of road built and curbed on the various streets to complete the work. Mr. Hilbert, chairman of the roads committee, was retained on the committee. Mr. York gave a detailed account of the needs of the work. The petition received the needed amount of signatures at the meeting and everything was harmonious.

## WESTMINSTER

WESTMINSTER, Aug. 10.—Rev. C. R. Shields, of Inglewood, came down Saturday evening and preached in the Presbyterian church both morning and evening, returning on Monday morning.

Several relatives came from Ingelwood to attend the service. They included his daughter, Mrs. Maude E. Knudson, and son, Gerald and Mrs. Maude Baylis and daughter. The latter family are from Tucson, Arizona.

Oral Hale returned Monday from Holland Island after a week's absence.

Barbara Ann, little daughter of Mr. and Mrs. D. D. Campbell, was quite sick with stomach trouble the latter part of the week, requiring the attendance of a physician for several days, but is much better.

Mrs. John Cook and two sons returned Sunday from Bell, where she has been visiting her sister, Mrs. Carrie Purcell.

Miss Bertha Dickey returned Sunday from Van Nuys, where she visited her brother, Wallace Dickey and family.

Word from J. J. Stoves family stated they would leave Kelso, Washington, for a week, visiting relatives at Sunny Side and also spending a few days across the line in British Columbia. They expect to be home early in September.

Walter Young and family spent Monday at Long Beach visiting his cousin, Ernest H. Dye, and family, who have been spending a few weeks there, and who leave Wednesday for their home in Tulare.

W. H. Edwards and son, Rufus, spent Saturday night at Los Patos.

Mrs. Edwards and daughter Nettie

spent the night with her daughter, Mrs. Albert Kittredge at Buena Park, and all spent the next day together at the beach, where they were joined by Eugene Edwards and family, and Ben Craig and family, forming a pleasant family reunion.

**Legal Notices****NOTICE TO CONTRACTORS**

NOTICE IS HEREBY GIVEN that the Board of Directors of the Newport Mesa Irrigation District invite all contractors to receive bids or proposals up to 4:00 P. M. of the 13th day of August, 1921, for work to be done on the said District, in accordance with the plans and specifications on file in the office of the Secretary for said District.

Each sealed proposal must be accompanied by a certified or cashier's check in the sum of 10% of the amount bid, payable to the Newport Mesa Irrigation District.

The Board of Directors reserve the right to reject any bid, or to accept any part of any bid submitted at the prices specified in the proposal.

Said sealed proposals will be opened on the 13th day of August, 1921, at 4:00 o'clock P. M. at the office of the said Board of Directors at the residence of Mr. J. C. Steels, 111 W. 4th Street, between Eighteenth and Nineteenth Streets, in said District. Postoffice address of said District is Costa Mesa, Orange County, Calif.

By order of said Board of Directors.

**LOUIS P. BAUMAN,**

Secretary of the Board of Directors of the Newport Mesa Irrigation District.

LOS ANGELES, July 21, 1921.

To the Stockholders of the Huntington Central Oil Company:

Please take notice that a special meeting of the Stockholders of the Huntington Central Oil Company will be held at Minto Art Building, 20 South Broadway, second floor, in the City of Los Angeles, County of Los Angeles, Calif., on the 11th day of August, 1921, at 10 o'clock A. M.

The first Tuesday after the first Monday in January in each year is fixed by the by-laws of the Company for the holding of an annual meeting for the election of Directors, such a meeting has not been held this year.

While the management has been specially called for, it is in the annual meeting of this Company and is called for the purpose of electing seven Directors or for the transaction of such other business as may properly come before the meeting.

By order of the Board of Directors.

**J. C. WOODWARD,**

Secretary of the Board of Directors of the Huntington Central Oil Company.

LOS ANGELES, Calif., Aug. 10.

These are the actual prices obtained yesterday by the Los Angeles whole-salers from their sales to retailers, peddlars, etc., as compiled by the United States Bureau of Markets. Terms—Cash on the walk.

**LEMONS**—Valencias, 90@75.

**ORANGES**—Valencias, 1.25@1.50 per lug.

**GRAPES**—Supplies liberal, movement slow, two cars of lemon sold. Market steady.

**LEAVES**—Supplies liberal, movement slow, market steady.</p

EVENING SALUTATION  
Horizon to horizon, bends outspread  
The tenting firmament of day and night;  
Wherein are winds at play; and planets shed  
Amid the fixt stars their sliding light."

## IT ISN'T YOUR TOWN--IT'S YOU!

Probably every newspaper in the United States has published a few pertinent verses under the title, "It isn't Your Town--It's You," that was published for the first time a few years ago.

"It's a knock at yourself when you knock your town;

It isn't your town—it's you!"

These two lines speak as much as a volume. When you find yourself dissatisfied with people and conditions about you, do you stop to make an analysis of the situation? How much are you to blame? Are other people smiling and satisfied? Have you argued the thing out with yourself?

Grouchiness is largely a habit. Ill health sometimes directs one along the pathway to habitual discontent, but is it only the one who lets himself follow in the pathway who really reaches the dismal swamp.

One may allow himself to drift into holding an attitude of pessimism toward everything that is suggested. Nothing for the good of the town looks good to him. He becomes a killjoy. His presence is a wet blanket wherever he goes.

And all of the time, his misery is due to nothing but his own habits of thought. He has allowed his disposition to spoil.

The trouble is not with his town, not with the people about him, not with conditions—he is his own trouble.

Secretary of War Weeks has issued instructions that army fliers are to do no stunt flying over built-up districts. The order is well worth while.

## CLEAN UP FOR CONFERENCE

An obscure item in the foreign news the other day stated that the Japanese government had sent a representative to China to try to make final arrangements for the return of Shantung to that country. This action immediately followed Japanese acceptance of the invitation to the Washington conference, on the basis laid down by Secretary Hughes.

It is not at all unexpected. It is natural that if Japan is to come to Washington at all, she should prefer to come, as one of her own public men has expressed it, "with clean hands." The government at Tokio will doubtless make a genuine effort to clean up the Shantung situation, before Armistice Day, and along with it, the Yap situation and the Siberian situation and the California situation.

Thus the wholesome effects of the proposed conference are already being anticipated, though the meeting is yet three months distant. Other powers also are likely to do their best to eliminate any situations that would not look well if dragged to the world's gaze at Washington. The efforts of the British government to come to terms with Ireland are doubtless hastened by this very consideration.

The stage is being set, and all the powers, including the United States, are beginning to feel that they had better be on their good behavior, lest they find themselves in a glass house in case of any diplomatic stone-throwing. It looks like the beginning of a new and hopeful era.

## CHAMPION OIL PORT

Once Bayonne, N. J., claimed first honors as an oil port, then Beaumont, Texas, and in these last years, Tampico. Now the title shifts again.

Abadan, an oil-port made to order on the site of an altogether insignificant Persian village, lays claim to the distinction. It is the port through which the oil of the great Persian fields, perhaps the richest in the world, finds its way out to serve modern civilization.

Only the most recent maps show Abadan. It lies on the eastern bank of the Shatt-Al-Arab, as the combined Tigris and Euphrates is known, some 50 miles above the Persian gulf. Great jetties accommodate the tankers which call there. Great refineries are working night and day, on the crude oil which comes down through three great pipe lines from pools 150 miles away. Their products include benzine, kerosene, gasoline, lubricating oils and fuel oils and paraffin wax. British capital is planning enormous expansions in the near future. The British government is co-operating in the maintenance of an adequate channel through the great bar at the mouth of the river.

Abadan is an odd name for a town, and the town itself is a long way from Main Street, but there is real romance in it, in spite of the odors which must rise from the whole neighborhood. The geography of business is romantic, anyhow, once you sit down to think of it.

## FINES FOR ABSENT SOLONS

While the majority of congressmen are wailing loudly for a vacation, one of their number has coolly introduced a bill which, if it carries, should be most efficacious in keeping delinquent law-makers on the job.

Representative Kissel of New York is the guilty soul. His measure proposes to double the pay for a congressman, making it \$15,000 a year. But he will receive this only in case of regular attendance. Fines are proposed, ranging from \$300 a day for absence from a 50-day session to \$75 a day for absence from a 200-day session. The member is to be classed as absent if he fails to respond to roll-call, and in case of consecutive absence for 30 days will lose his seat.

The public probably will not regard the proposal for higher congressional salaries very favorably just now, but the rest of the bill should rouse genuine enthusiasm. Any measure should meet with popular favor which puts an effective check upon the ancient art of dallying in the most important offices of the nation.

## SOLDIER RELIEF FUNDS

The new soldier relief bill, when it becomes a law, will provide about \$480,000,000 for bettering the condition of the soldiers. One of the most pertinent inquiries made during its discussion came from Representative Cannon of Illinois.

"How much of that sum," he inquired, "will go to the soldier, and how much of it will go to administration?" The reply that \$13,000,000 will be re-

quired for administration and that all the rest will go directly to improving the condition of the soldiers is encouraging in view of the tremendous scope of the work. But the query was right to the point, none the less.

"Uncle Joe" knows by long experience that too often the sum voted by Congress for any reform in the establishment of a deal of complicated machinery and the provision of innumerable easy jobs for healthy constituents, and that by the time these bills are paid the sum left for disbursement in the original cause is sadly reduced.

This condition arises not because the men handling the proposition are intrinsically dishonest but because governmental business methods have been lamentably poor in the past. But the country is awakening to this evil. There is a demand for greater efficiency in the administration of public funds and considerable promise that the efficiency will be forthcoming.

Thus far, although tremendous sums have been voted and spent, the result in actual relief to the service man has been small and unworthy of this nation. If the new bill which provides for a simplification of methods and a unification of offices results in more help for the soldiers for every dollar appropriated, there is every reason for congratulation.

## MONTICELLO FOR AMERICA

The old home of Thomas Jefferson is for sale. It belongs to former Congressman Jefferson M. Levy of New York. After restoring such parts of it as needed restoration, and putting the whole place into excellent condition, he has offered it to the government or to any private citizen or organization that is "able and worthy" to own such a shrine. The proposed price is \$500,000 and is said to be much less than the present owner has spent on the place.

It is hardly to be expected that Congress will vote money for any such purpose just now. It is an era of economy. Congress is supposed to be spending money only for bare necessities of national life. Monticello may be regarded as a luxury.

Moreover, partisan considerations ought not to have much to do with the matter. In Jefferson's time the two big parties had not yet taken distinctive form. The political philosophy he preached was so broad that he may be justly claimed by all liberal-minded Americans in much the same sense as Lincoln may be. He is recognized as one of the biggest of the group of big men who made the nation and gave it its free character and institutions. His home in Virginia was in keeping with the man, as was Washington's, and Monticello has always been a shrine of Americanism second to none but Mount Vernon.

It is much to be desired that, if Congress cannot see its way clear to acquire Monticello as a national memorial at this time, some patriotic organization will take it up, following the fine example of the D. A. R. with Mount Vernon.

## Death On Our Highways

San Bernardino Telegram

Readers of the newspapers cannot but have observed that most automobile tragedies are, primarily, the result of such recklessness on somebody's part as the law prohibits. There are accidents, on occasion, properly classed as unavoidable, accidents that arise from unforeseen combinations of circumstances that present themselves so quickly they cannot be evaded. These, however, are but rare exceptions. Inquiry into the daily toll of accidents discloses most of them could have been avoided had both the participants had knowledge of the traffic rules and had obeyed them.

Every autoist with a decent consideration for the rights of others and a lively appreciation of his own value to his family, with sufficient intelligence to translate his prudence into action, is daily impressed with the risk he hazards in driving on Southern roads. Every sharp turn in the highway presents him a thrill in the knowledge that some fool, with money enough to buy an automobile but without the brains to operate it, may swing rapidly around on the wrong side of the road, bringing injury and expense, perhaps death, to both. Each time the prudent driver hears behind him the raucous sound of a klaxon, he knows it is quite on the cards the daredevil to the rear may chase him off the road and into a fence corner to glut an appetite for excitement.

In short, motoring has become less a recreation than an adventure, less a pastime than an exciting sport with the loss of limb or arm as the possible—indeed, probable—outcome. The term "pleasure car" has become almost a misnomer. He is unversed indeed in the meaning of words who can negotiate a busy Southern California thoroughfare for a few hours and use the word "pleasure" to describe his experiences. His emotions are many and varied; one moment, he is ready for murder and the next he wonders why the justly famous hospitality extended at Patton attracts comparatively, so few guests.

Official failure to enforce existing laws must accept full responsibility for existing conditions. Tendencies of the many persons, of common sense, to become lunatics when their foot touches the accelerator and their hands the steering-wheel of an automobile form an alibi no peace officer can plead. If there were rigid enforcement of law, without respect for persons, the automobile tragedies that disgrace Southern California would soon be reduced to a minimum.

Sympathy is usually expressed for that victim of an auto accident whose reckless indifference to the right of others and to the traffic laws precipitated a calamity he shares with others. Obviously there should be none. Sympathy should be reserved for his victims, while his next address after leaving the hospital should be a nice, commodious jail. Mawkishness is as inexcusable as indifference.

by George Matthew Adams

## HUNGER

There is a keener hunger than that of the body. And that is the hunger of the soul.

Most of us have had them both—and so understand each.

Sometime ago I read a very beautiful sentence. Here it is: "If I had but two loaves of bread, I would sell one of them and buy white Hyacinths to feed my soul."

Many of the greatest tasks of the world have been performed on empty stomachs—notably so in the fields of art, science and literature.

In like manner, some of the noblest conceptions of life arise from the hunger of the soul.

In loneliness and want are we sobered.

We crave while we lack.

It is comparatively easy to satisfy the ordinary physical hungers, but to the soul there seems to be an everlasting hunger. So much of the world hides "behind the dim unknown."

There are no laws within the kingdom of the soul. It is the only free place to be found anywhere. Or else how could the soul hope to crave out of its bursting reach?

We find ourselves where our purest affections are.

The running fingers playing across the strings of God's harp tell us what we may find in the music of the spirit the one thing which is able to soothe the restlessness of our physical frame.

How fortunate are they who hunger!

## The Velvet Hammer

BY A. B. B.

E. D. YOST

Escape from actuality is man's persistent aim. It is, we may as well confess, a profitable game. The world as we discover it is very flat and pink. Its most enchanting promises are full of wind and bunk. The substance is a sordid joke, a dire and dusty bluff. We whoop it up for shadows, since the shadows are the stuff.

When Santa Ana citizens are weary of their groove, they may depend on E. D. Yost to make the shadows move. His three attractive theaters, the Temple, Yost and West, absorb a lot of money we could otherwise invest, but he who nags his pleasures while the days are going by, is in the last analysis the truly thrifty guy.

The talents of the vaudeville teams which visit at the Yost are fitted to a climate where the winter brings no frost. He stands for full propriety in all the pictures do and never flashes us a film that we're too weak to view. He's in with the Rotarians, that hand-selected throng, who have their own ideas as to pushing life along.

Billy walked over and put his hand on the Ford car.

Father Bear walked over sideways, then mostly resting on account of the basket getting heavier instead of lighter, and jest went we was almost home the basket dropped on account of me dropping it and the potatoes rolled all over the street and it took us about 10 minutes to pick them up again. Puds saying, Good nice, if I'd known how heavy it was, good.

Sounding like a good idea to Puds, and I bawt a hole basket instead of jest 3 pounds and me and Puds started to carry it home by both taking a hold of the bottom and wawking sideways. Puds saying, G wiz, holey smoks, if I'd known how heavy it was, good.

And we keep on wawking and resting, at first mostly wawking and then mostly resting on account of the basket getting heavier instead of lighter, and jest went we was almost home the basket dropped on account of me dropping it and the potatoes rolled all over the street and it took us about 10 minutes to pick them up again. Puds saying, Good nice, if I'd known this.

And I opened our front door and called back to ma, Ma, I saved you 50 cents, if you don't believe it come out and see. Wish me did, looking suspicious wen she came out and wen she saw the basket, saying, A hole basket of potatoes, such an idea, they'd all be bad before I had them half used up, take them back immediately and bring me 3 pounds like I told you.

And she went in agen and Puds sed, Well I'll be darned, if Id of knew this. And we carried the basket back to the grocery store, dropping it twice instead of once and wishing we had never even saw it.

COMFORTABLE.

"I wish I had a place in your heart."

"Indeed!" she snapped.

"Yes," he retorted, "it is so de-lightfully cold."—Boston Transcript.

hear, Billy touched the button and Mr. Ford honked with all his might right in Father Bear's ear.

That scared Father Bear far worse than when the lights flashed in his eyes.

"Gr-rr-rr-ow!"

Father Bear was ready to tear that Ford to pieces. Then you ought to have heard Billy laugh. It was the second joke he had played on his Daddy and both worked fine. It was a great day for Billy Bear.

Maybe you think Father Bear was not proud of that young son of his when he saw the wonderful things he was learning in the world!

## Little Benny's Note Book

Ma sent me to the grocer store for 3 pounds of potatoes this afternoon, saying Heers a 5 dollar bill and for goodness sake be carefull of the change.

Well if I don't lose any of it, ma, will you give me a nickel of it? I sed, and she get, Set the potatoes and dont waist so much time tawking.

Meening she woudent, and I started to go erround to the grocer store feeling sorry I was going a errand, and I met Puds Simkins half ways erround and he went the rest of the ways with me on account of not having ethings elts speelsh to do, and wen we got to the grocer store there was a siaz on the potatoes saying, 5 cents a pound, \$2.50 a baskit. Me having a ideer and saying to the man, How meny pounds in a baskit?

60 pounds, you save 50 cents on every baskit, sed the man, and I sed to Puds
